

University of Essex

Your studies

Department of Psychology

Undergraduate Student Handbook 2023-24

Welcome

A very warm welcome! We are delighted that you chose to study Psychology with us here at the University of Essex. Whether you are joining us in your first year or are returning to us after the summer vacation, we are thrilled to have you (back) and can't wait to get started. We understand the challenges and opportunities that come with living away from family and friends (for the first time). For some of you, they are located elsewhere in the UK, for some of you they will be further away and live abroad. Either way, rest assured that we are here to guide you through the academic year and trust that you will make many new friends for life. One of the unique features of our department is that we are very international diverse – go make the most of it! As you will discover, the Department provides a vibrant and dynamic place in which to study. We encourage you to make full use of our excellent facilities, including our research and computing laboratories. The more you emerge yourself in departmental and university life, the more you will get out of your experience. We are here to support you along the way.

You will be taught by experts in the different fields of psychology and you will receive up-to-date courses taught by well-qualified, highly-knowledgeable and highly-motivated staff. We are sure that you will find your studies both challenging and rewarding, that is part of University life. If we're doing something good, let us know. But if things could be improved, let us know, too. You will be allocated a personal tutor who is keen to get to know you more and who will help you through your studies. Make sure you let them know how you are doing. As student members of the department, you will play a vital role in contributing to our thriving Psychology community. You can do this through participation in our research experience scheme (RES) or our social media, activities and events experience scheme (SHOUTS). Keep an eye and ear out for more information and how to contribute. Our community is shaped by you!

You have chosen a wonderful place to study, both in terms of research and

education as Psychology at Essex was ranked 18th out of 93 UK psychology departments for the overall quality of our research power in the latest Research Excellence Framework report (REF2021). We've been similarly successful in the latest National Student Survey (NSS) where we're ranked 21st in the UK for overall student satisfaction. Let's work together to make Psychology at Essex even more successful. Understanding our place in the world is the department's mission and the study of human behaviour has never been more relevant than now! Enjoy being part of this community and don't be shy to contribute. Our biggest goal is for you to experience a world-class education while enjoying your time at Essex!

Professor Silke Paulmann, Head of Department, Department of Psychology

Introduction

Your Student Handbook will tell you everything you need to know about your department, the University, its academic policies and procedures, and all of the resources that are available to you.

At Essex we put the success of our students at the heart of everything we do, and want to support you to achieve outstanding outcomes. We are absolutely determined to provide you with the best Essex education and student experience we can, while safeguarding your health and wellbeing.

We celebrate diversity and challenge inequality. We are a truly diverse community where differences are celebrated, and individuality is valued. Your contribution is welcomed and encouraged based on your own thoughts and experiences. As part of our community you will have the freedom to explore, experiment, challenge your discipline and have your ideas shaped by peer and professional knowledge from all over the world. Essex is about more than just getting a degree: we have so much to offer our students.

Things might have to change and adapt over the year, so make sure that you're checking online and keeping in touch with your department for the latest updates. The [Student Directory](#) contains a wealth of other helpful sources of information which you may also find useful.

Practicalities and Getting Started

Registration (New Students)

As a new student, you must complete the [registration process](#) in order to begin your studies with us. Registration is not only a formal procedure of enrolling you into the University, but also, connects you to a number of vital systems which allow you to access your online Welcome and Induction information and start your studies. Because of this, you'll be asked to complete compulsory steps, such as activating your Essex IT account, provide key information about you as part of Online Registration (including payment of fees where required), complete online Right to Study checks and attend an in-person Right to Study Check on campus where you will collect your Student Registration Card. Once you've completed these steps, you'll be able to begin attending teaching and engage with your course.

You should ensure you have completed the [registration process, including payment of your fees \(where required\) by the published Latest Registration Deadline](#) for your course. If you do not do this, you may not be allowed to register and begin your course with us.

Registration (Returning Students)

As a returning student, you will need to ensure you complete Online Registration and pay your fees (if required to [do so](#)) at the start of each academic year to be able to continue your studies with us. It is essential that you complete all required steps, by the published [Latest Registration Deadline](#), otherwise you may not be allowed to continue your studies with us.

If you are a student undertaking studies with us with a form of immigration permission, in some instances you may be required to undertake an additional Right to Study Check, before being permitted to re-register. This may be the case if one or more of your documents have expired, or your immigration status has changed. You will be contacted by our International Services Team, if you need to complete an additional check.

Right to Study

The University must ensure all students have the right to study at the University of Essex for the whole duration of their course. If you aren't a UK or Irish national, your [immigration permission](#) to study in the UK will be checked via the online Right to Study system, when you first arrive on campus, and as necessary thereafter. Students have a duty to maintain valid UK immigration permission that allows study for the duration of their course, failure to do so may lead to withdrawal from the University under the [University's General Regulations](#).

Students with sponsored immigration permission

The University is a Student Sponsor with a track record of compliance and must ensure we remain compliant to retain our sponsor status. Students with a Student visa have [additional responsibilities](#) to the University and the Home Office. There will be conditions attached to your visa that restrict what you can do in the UK, breaking any of the conditions may mean you can't remain in the UK and complete your course. You are expected to attend your in-person teaching events and this will be monitored throughout your course. If your [attendance and engagement](#) fall below expected levels or you are absent without permission for a period of time this is likely to impact on the University's ability to continue to sponsor your Student immigration permission. The International Services Team can provide [immigration information and advice](#) throughout your studies.

Choosing your modules

You may have module options to select as part of your course structure. If you do, you must select the modules you wish to enrol on before the academic year begins. You can view and choose your specific options through the [eNROL system](#). New students can do so from the end of August and returning students can from the April preceding the next academic year. Early module enrolment ensures that timetables can be scheduled effectively. We'll talk more about how you might decide which modules to take in the [Learning and Teaching](#) section of this Handbook.

Explore your Campus

There is a broad range of [facilities](#) across each of our campuses to support your experience at Essex, whether in person or virtually. For the latest information, see the updates on [services on campus](#).

Get connected

Your IT account

You will need to activate [your Essex IT account](#). Once you're set up, you can access your Essex email, log in to [Moodle](#), access lab computers and Library services, [print for free](#) (subject to our fair use policy) on campus, connect to campus wifi, and much more. When you activate your account, you will need to register an external email address and passphrase so that if you [forget your password](#), you can also reset it using these details. If you have forgotten those, you should contact the [IT Helpdesk](#). Make sure you keep your password safe and do not share it with others.

For a quick rundown of what you need when you first start, head to the [Getting Started with IT guide](#) on the Student Directory.

Campus wifi

If you are studying on any of our campuses, connect to our wifi by finding the [eduroam](#) network on your device. Use your Essex email and password to join.

Essex Apps

The University has a variety of online systems and platforms designed to enhance your learning and help make processes, such as submitting coursework, easier. We have rounded up the top platforms, portals and apps that you need to know about!

MyEssex

[MyEssex](#) is your online account and can only be accessed via an internet browser. This is different to your applicant portal – you can use MyEssex to view your timetable, update your personal details, request replacement student cards or supporting documents, monitor your course progress, let us know if you'll miss a lecture or class, contact the Student Services Hub, and much more.

PocketEssex

[Pocket Essex](#) is the University's official app for students that can be downloaded on your phone or tablet for free. It acts as a portal through to a variety of areas and resources that will be useful for you throughout your studies. PocketEssex links to many areas that MyEssex does, but also takes you through to other key resources, such as the Students' Union, FindYourWay and the Library.

Find Your Way

When on campus, we know that finding your way can be challenging to start with. Our Colchester campus in particular can be difficult to navigate with a historically complex room numbering system! [FindYourWay](#) is our interactive campus map app designed to get you from A to B on either the Colchester or Southend campuses with quick and easy directions. You can download this app on your phone or tablet for free!

Working while studying

Many students choose to work part-time to supplement their income. Working during your course can also give you excellent skills and experience to boost your CV. Our [Student Services Hub](#) can help you find part-time work. There are also many opportunities to [work in paid jobs on campus](#).

You can access recommendations on working hours, as well as guidance on rates of pay and National Insurance contributions on the [Careers Services webpages](#).

If you have a Student visa, please read our information on [working in the UK for international students](#) before you start looking for a job. The country you are from and your visa type will determine whether or not you can work in the UK. If you can work, the type of work you are allowed to undertake and the number of hours you can work will be restricted.

Your personal belongings

The University does not cover costs for personal damage or loss of possessions; only in instances where the University has been negligent would a claim be viable for compensation for personal belongings. Therefore, you are strongly advised to take out personal insurance cover for your possessions. This is especially important for valuable items, such as laptops, phones and tablets.

The Essex Experience

We are proud of our inclusive and international community. Our campuses are places where every single person can feel they belong and where you can find the world in one place. We have created a [Student Charter](#) as a pledge that every student signs up to when they join us. By signing up, you promise to uphold our values and to behave in ways that strengthen and support our community. We promise to support you at every stage of your journey with us.

Embracing our values

We are different at Essex. We are brave, we are bold, and we embrace challenges and drive change. Our values are underpinned by this very culture. While we encourage you to challenge the status quo and explore the unknown, we expect that all of our students do so respectfully, intelligently and act as true ambassadors for the University. Our [Code of Student Conduct](#) outlines the rules and regulations that help us maintain our high standards of behaviour.

Equality, Diversity and Inclusion

The University recognises the value of diversity and is committed to providing equal opportunities for both students and staff. Our students and staff are treated with dignity and respect, and solely on the basis of their merits, abilities and potential, while still having the relevant impact and implications associated with race, ethnic or national origin, gender, gender identity, sexual orientation, disability, age, socio-economic background, family circumstances, religious or political beliefs and affiliations, or any other identity-forming characteristics, taken into consideration as necessary to ensure equal opportunity..

The University is committed to a programme of action to ensure that this [policy](#) is fully effective.

The Department of Psychology has achieved a Silver Departmental Athena SWAN Award and there is a dedicated Equality, Diversity and Inclusivity (EDI) committee. Everyone is welcome to join our monthly EDI lunches and contribute to discussions on equality and inclusivity. Feedback on these issues is also very welcome (e.g. through the Student Voice groups).

Student communities

We pride ourselves on being a welcoming and inclusive community. We recognise the value of diversity and are committed to equality of opportunity within the University.

We offer a wide range of support to individuals and [groups of student members](#) – our student communities – who may have specific requirements, interests or responsibilities to help fulfil your potential. Whether you are an international student, a mature student, a BAME student or have any other requirements or needs, we want to welcome you with open arms. The University is committed to a programme of action to ensure that this [policy](#) is fully effective.

Environmental Sustainability

We have made commitments as a University to reduce our impacts on the environment, including reaching net zero carbon emissions by 2035. In December 2020 we declared a [climate and ecological emergency](#) and developed a [sustainability strategy](#) that sets out our ambitions up to 2026. Our Sustainability team works on a range of projects from energy efficiency to extracurricular activities to help everyone at Essex live, study and work in environmentally-friendly ways. Everyone is encouraged to do their bit, and there are simple steps you can take as a student: remember to bring a reusable cup for takeaway drinks, and a bottle that you can refill at one of our many water fountains. If you live on campus, switch off electrical items that aren't in use, and be sure to keep windows closed in colder months when the heating is on. For more information, contact the Sustainability team – sustainability@essex.ac.uk.

Essex Sport

Learning doesn't just happen in the classroom. Keeping active during your studies is a great way to meet new people, help relieve stress, maintain good physical and mental wellbeing, increase productivity, and improve your employability.

[Join](#) Essex Sport and be part of something bigger. We're a community of like-minded individuals who are dedicated to enriching your experience at University of Essex. By fuelling your passion for all things active we help you make new friends, find new interests and be the best you. Whatever your sport, whatever your level, from fan to [professional athlete](#), we've got a place for you.

Visit the [Essex Sport](#) website or [download the app](#) to discover all the ways you can keep active during your time at Essex. In order to ensure the welfare of our community there may be changes to opening hours or what's available, so do check on the website and our [Facebook](#), [Instagram](#), [Twitter](#) for the latest information.

Students' Union

We're famous for our [Students' Union at Essex](#), and for good reason. Here you are not just a member of a normal Students' Union, you are part of a family. They are here for you from the day you arrive to the moment you graduate to support you in any way they can.

The Students' Union is run by students for students, and you have the ability to shape what we do. From deciding who leads the SU, to shaping your own experiences at Essex, they are here to represent your views and work with you to make amazing things happen.

Get involved!

There are opportunities to join [Sports Clubs](#), and get involved with competitive sports in our [BUCS teams](#), or if you don't want to commit to a regular team, or would rather not play competitively, check out our [Just Play](#) programme run by the Students' Union.

We have over [120 Societies](#) where you can meet people with similar interests, challenge yourself with something new or if you can't find what you are looking for- [Start your own](#).

We also train, recruit and support hundreds of student reps each year. These reps gather feedback to share student viewpoints on academic experiences. You can find out more about student reps including how to sign up and getting trained [here](#).

We also have our very own lettings agency ([SUHomes](#)), to offer help and support to students to find off campus accommodation.

Chart My Path

Use Chart My Path to discover over 200 extracurricular activities offered at Essex, and get recommendations personalised to you. Log into [GradIntelligence](#) to get started.

Essex spirit, social media and what's on?

Keep up to date with important news, events and offers from across the University with our Essex spirit newsletter, delivered directly to your Essex email address.

Our [Events calendar](#) brings together all the events happening across our three campuses, so you can make the most of your time at Essex.

About the Department of Psychology

Meet the team

A full list of all staff can be found on our [website](#). Below is a summary of the roles of staff that can help you with a variety of areas during your time at Essex.¹

Departmental Role	Name	Room No.	Email address	Phone No. 01206 87XXXX
Year 1 Tutor	Dr Tom Foulsham	Room 4.703	foulsham@essex.ac.uk	4159
Year 2 Tutor	Dr Steffan Kennett	Room 3.705	skennett@essex.ac.uk	4364
Final Year Tutor	Dr Anna Hughes	Room 1.702	anna.hughes@essex.ac.uk	3435
Senior Student Administrators	Megan Brown, Martin Bernstein	Room 3.702	psyugadmin@essex.ac.uk	3771, 3801
Psychology Technical Services	Technical Services team	Room 2.712	psysupport@essex.ac.uk	3750, 3736
Director of Education	Dr Gethin Hughes	Room 4.710	ghughes@essex.ac.uk	4154
Department Disability Liaison Officer (DDLO)	Dr Tracy Robinson	Room 3.716	tracy@essex.ac.uk	4134

¹ Department/school information in this Handbook is correct at time of publication but there may be role changes within the department/school throughout the Academic Year. Students should consult staffing details held online for the most up-to-date information.

Departmental Disability Liaison Officer

The Departmental Disability Liaison Officer (DDLO) for Psychology is Dr Tracy Robinson. You can contact Dr Tracy Robinson on tracy@essex.ac.uk. The Departmental Disability Liaison Officer (DDLO) is a direct link for you between the Student Services Hub and your department. They can help make sure that the Disability Service know about any adjustments you need.

The Administration Team

The best way to contact us is by email using psyugadmin@essex.ac.uk. This will be delivered to our Senior Student Administrators. It is helpful if you can include your registration number and year group in your email. We always try to reply within two working days. If you would prefer to talk you can drop into the office (3.702) and we can also organise meetings via Zoom or a phone call. We are always happy to talk to you and will arrange a call at a mutually convenient time.

The Technical Services Team

The Technical Services office is open from 09:30am-4:30pm, Monday to Friday for equipment collection, returns and door key loans only. For all other enquires and support email psysupport@essex.ac.uk.

Teaching staff and support

All teaching staff hold regular weekly academic drop in hours during term time. This is a time when you can meet with them about anything to do with your modules, from difficulties you might be having with your seminar readings, to discussions about feedback on your coursework.

Please note that academic staff do not hold regular academic support hours during the vacations, and may, on occasions, be away from the University on research trips and visits. Therefore, if you need to get in touch with them during the vacation periods, you should email them in the first instance.

We have also listed some other key staff roles and how these individuals will be able to support you.

Module Coordinators

There are dedicated Module Coordinators to support students for each module. The Module Coordinators for each module can be found on Moodle. If you have a specific study question the relevant module information can be found [here](#).

Your Personal Tutor

All undergraduate students have a Personal Tutor who will meet you soon after you arrive, and regularly throughout your course. Your Personal Tutor will be a member of academic staff and is someone you talk to about your course or any difficulties that may encounter. They can recommend and direct you to other support services that might be able to further help and support you. You can find out who your Personal Tutor is through [MyEssex](#).

If you have a disability, long term medical condition and/or Specific Learning Difference and have not registered with Student Wellbeing & Inclusivity Service, to discuss your support needs, please email include@essex.ac.uk.

Your Peer Mentor

All first-year students are assigned a [Peer Mentor](#). Peer Mentors are either a second or final-year student. They will contact you to introduce themselves and organise how you'll stay in contact.

Become a Mentor

If you are in your second or final-year and are interested in becoming a Peer Mentor, a call for mentor applications is usually circulated in the Spring term. If you have any questions in the meantime, you can contact your [Peer Mentor Coordinator](#) for further details.

Staff research interests

You can find out more about the areas of Research the Department covers [here](#).

Departmental resources and facilities

A wide range of facilities and resources are available for all students to access and use as part of their study at Essex. Each department and school also has a selection for the exclusive use of their students. Below is a summary of the facilities and resources that are likely to be most useful to you.

The Laboratories

The Department has excellent learning resources and facilities for our students. We have custom-built laboratories and first-class equipment. The laboratories are on Floors 1 and 2 of the Psychology Department. They house a large number of computers, each supporting word processing, internet, statistics, spreadsheet, presentation and psychology experiment building tools.

For the convenience of others and yourself please be aware that there are a few rules relating to Lab use:

- No food, drink or chewing gum.
- Please do not prop the door open.
- Save your work regularly onto your M drive. (File saved to the desktop or hard drive will be removed)
- Do not install anything onto any computer.
- Please report any faults to the Technicians (room 2.712).

SmartHub Booking System

The Department operates an online booking system called SmartHub. SmartHub is our main source for staff and students to book labs, psychometric tests and small equipment to support research. Small items of equipment are available to loan for a maximum of two weeks.

To register an account to use the SmartHub system, please go to <https://psysexsex.siso.co/> and click on 'Account Registration'. Once complete, your registration will be directed through to the technical team to ensure users have the right level of access. Once approved, you will receive an email notification and be able to start using the system. Please allow one full working day for the approval. A user guide is available for getting started with the SmartHub system. This can be requested from the technical team.

The Psychometric Store

The Psychometric Store is in Room 2.711A on Floor 2 of the Psychology building and is administered by the Technical Services team in Room 2.712. You may

borrow items from the Psychometric Store only with permission from your lab tutor or project supervisor. The store contains a wide range of equipment, headphones, questionnaires and psychometric tests, voice recorders and stop watches.

Most items in the store are available on a two-week loan basis. Requests to renew the loan period must be made by contacting the Technical Services team. Please e-mail the team (psysupport@essex.ac.uk) at least five working days before you require extending a loan in case the item needs to be recalled. Requests for loan of equipment, laptops, IT and AV equipment should be addressed directly to the Technicians in room 2.712 (psysupport@essex.ac.uk).

Software

The University provides a number of software applications that are free to use whilst you are a student (Microsoft Office, SPSS, Matlab etc.) A full list of applications can be found and installed from the [central software hub](#).

Printing, photocopying and scanning

All students can [print, copy and scan for free at Essex](#) subject to our fair use policy. You can even print from your mobile by sending your file to mobileprinting@essex.ac.uk using your Essex email.

Once you've located a device, simply log in using your Essex login and password, or tap with your student card to print. Whilst printing is free for all students, please think of your carbon footprint, only print if necessary and check your available quota.

Please note that there are strict laws about infringement of copyright; more information can be found on the [Library website](#) which explains what and how much you are permitted to copy. Usage is monitored and subject to a fair use policy.

Noticeboards

Every department and school has their own noticeboard providing information on staff, courses and classes, updates, careers, events and opportunities. The main Psychology noticeboards can be found outside of room 3.702 next to the entrance from Square 1.

Departmental prizes

Each year we are pleased to award prizes signifying excellence. The following prizes are available for award to undergraduate students:

- **First Year Psychology Prize** for Best Overall Year mark
- **A.T Welford Memorial Prize** for the Best Research Skills
- **Second Year Psychology Prize** for Best Overall Year mark
- **Ray Meddis Prize** for Research Project with the highest mark,
- **Michael Lodge Memorial Prize** for the Best Overall Degree mark
- **The British Psychological Society Award** for Best overall degree mark across our accredited courses.
- **Margaret Bell Prize** for Outstanding contribution to the Department.

Dean's List for Excellence

The Dean's List for Excellence is an annual list of students within each Faculty who have achieved a high level of performance in a non-Final Year of degree level study. To be included on the Dean's List for Excellence, you must have achieved the following, either:

- (a) A Year Mark of 70 or above, or
- (b) 60 Credits at 70 or above with a Year Mark of 68 or 69.

Communications

The University will predominantly use email for routine communication between staff and students. Your Essex email address will have been added to the relevant email groups specific to your department or school, course and modules to ensure that you receive the essential information relevant to you. It is recommended that you check your Essex email each day to ensure you do not miss any important updates to classes and assessment.

You will also automatically be subscribed to a small number of opt-out lists, again, based on your course. You can always [opt in or out](#) of these communications online.

Social Media

The Department has Facebook and Twitter pages, which can be found here:

<https://www.facebook.com/PsychologyatEssex>

<https://twitter.com/EssexPsychology>

The use of personal devices

You can use laptops and tablet PCs during teaching classes for purposes related to the class you are attending. You should refrain from using your mobile phone during all teaching events, except in cases where a lecturer uses a programme which requires these devices to be switched on for participation.

Learning and Teaching

The University is committed to providing equal opportunities for all our students regardless of where or how you study. Our diverse student population is considered when developing the resources, services and facilities on and off campus, when we create our courses, write publications and course materials, and set our policies and regulations.

The academic year

The academic year uses a week numbering system that covers the 52 weeks of a calendar year but corresponds to typical term dates. So, the start of the academic year is week 1, which is Welcome week, with teaching commencing in week 2.

Term	Week numbers
Autumn	2-11
Spring	16-25
Summer	30-39

You can view the University's week numbers with the equivalent dates in the week by week [calendar](#). The University's [key dates](#) include an overview of the start and end of each term and exam periods.

Some courses have slightly different term dates. However, you will find that all activities and events make reference to the standard academic year terms and schedule noted above.

You are expected to be available during term time to attend teaching events, unless otherwise advised by your Department.

My Course

Each course at the University has its own syllabus, full details of which, including the aims and learning outcomes of your course, can be found in the University's [Programme Specifications Catalogue](#).

Your own course structure, including your specific programme specification, can be found in the MyStudy section of your [MyEssex](#) homepage.

British Psychological Society

Many of our degrees are accredited by BPS. This means they are recognised by British Psychological Society (BPS) for the purposes of Graduate Membership and towards the Graduate Basis for Chartered Membership. Accreditation gives graduates the opportunity to gain Graduate and/or Chartered Membership (GBC) of the Society. GBC is an entry requirement for all postgraduate training programmes leading to chartered status.

In order to gain a degree that confers the British Psychological Society's Graduate Basis for Chartering (GBC) status, you must obtain an overall classification of at least lower second class honours (2.2) and you must obtain a pass in the PS300 project module. Full details about graduate membership can be found on the [BPS website](#).

Credits

Your course will be made up of a certain number of credits. Generally, undergraduate degrees contain 360 credits worth of modules in total during your course at Essex. This is divided into 120 credits per each year of study, with credits allocated to each module that you take.

Learning outcomes

Each course has learning outcomes which need to be met in order to progress. Course learning outcomes are categorised into knowledge, intellectual, practical and key skills, and are also defined more specifically at a modular level. Having this information means that you can measure your progress against the outcomes, for example when reviewing coursework feedback.

Grade boundaries

Marks for undergraduate modules fall into one of the classifications set out in the table below. Bachelor degrees are usually awarded under these classifications too. The method for calculating your final award classification will take into account module marks and any other requirements - full details are set out in the [Rules of Assessment](#).

Degree mark	Class
69.5% and over	Class 1
59.5 - 69.4%	Class 2.1
49.5 - 59.4%	Class 2.2
39.5 – 49.4%	Class 3
39.4% and under	Fail

Module enrolment

Most modules taught reflect the individual research interests of members of our academic staff. New modules are regularly explored, researched and developed to expand our transformative educational offering at Essex.

The University provide [further guidance](#) on choosing modules, and meetings for first and second-year students will be held by your department where students can discuss their choices with their Personal Tutor. Your preferred choices must be submitted prior to the start of term through the [eNROL](#) system.

A full list of modules available can be found on this [webpage](#).

Changing Modules

In instances where you need to make a change to your module choice, you may do so up until the second week of the Autumn Term. If you wish to change an optional module after the deadline, you should seek advice from the Senior Student Administrators in the Department or School Office that runs the particular module that you may wish to change to.

Late changes may be permitted but will be subject to the approval of the department that runs the module and the relevant Dean. Late changes of modules that run for one term or less will not usually be permitted. Students may not change modules that are core or compulsory for the course for which they are registered.

If there is a module that you would like to study that isn't available as an option on your course, then you can ask for a change to your syllabus to be made by submitting a [special syllabus](#) request. Special syllabus requests are not automatically available and require approval. It is a good idea to talk to your Senior Student Administrators in the

Department or School responsible for your course, as well as the Department that teach the module if it is an outside option.

Requests to study a lot of outside options, to change a core or compulsory module of your course, or to study a module at a different level of study, are unlikely to be approved.

Module Coordinators

Module Coordinators are responsible for individual modules. They design, teach and examine them. They monitor student progress and can also talk to students about any related academic issues.

Fitness to practise

[Fitness to practise](#) is only applicable to students on certain professional courses (such as Nursing or Social Work) and is designed to ensure and regulate that a student is suitable for engagement in the relevant profession.

Employability Modules

Each year of your degree includes a module aimed at providing you with the knowledge and confidence you need to pursue your chosen career and goals.

Modules comprise of timetabled sessions run collaboratively by staff from the Department of Psychology and the Careers team in Student Development, and sessions with guest speakers.

The modules:

- provide opportunities to reflect upon your strengths and weaknesses and decide upon your personal goals and career aspirations.
- help you identify the steps required to reach those goals.
- introduce opportunities and resources to achieve your goals.

[Year One](#)

[Year Two](#)

[Year Three](#)

Identifying your skills

Through engaging with the curriculum and different experiences on offer in your core modules, you will be developing and utilising a variety of transferable skills and attributes. These are skills that are useful in a broad variety of careers as well as everyday life, such as analytical reasoning, communicating about scientific evidence, and being a member of a team. You will have the opportunity to work with academic staff to identify these and develop them in ways that will enhance your learning experience and support your future study and career aspirations.

Study Abroad

[Essex Abroad](#) provides you with the opportunity to have an international experience during your time at Essex to enhance employability, gain valuable transferable skills and develop as individuals. You can study, volunteer, intern or complete research abroad as part of our programmes. Many courses can be taken as a four-year variant to include a year studying abroad at one of our partner universities across the world, and some courses have the option to study for a term abroad as part of a three-year degree. You can [find out more about applying](#) and what you'll need to consider if you're interested in a term or year studying abroad. For information regarding your funding during a study abroad, you should liaise with the Funding Team – funding@essex.ac.uk. Students with disabilities should also liaise with the Student Wellbeing and Inclusivity Service – include@essex.ac.uk.

As well as studying abroad, we have a wide range of [summer programmes](#) available including volunteering programmes, international internships and research abroad opportunities which are open to all Essex students. These programmes vary in duration, location and cost and can be a great addition (or alternative!) to studying abroad.

The University of Essex is a founding member of the YUFE Alliance. YUFE (Young Universities for the Future of Europe) is a collaboration of 10 different European institutions, providing you with the opportunity to study across multiple partners virtually or physically; as part of your degree or in addition to it. YUFE aims to be the

leading model of a young, student-centred, non-elitist, open and inclusive European University.

As a University of Essex student, you can obtain an international experience through YUFE, taking anything from academic to language courses, or even entrepreneurship courses; allowing you to go the extra mile and stand out from the crowd. Find out more about YUFE and how to apply on our dedicated section on the [Essex Abroad YUFE webpage](#) and through the [YUFE Virtual Campus](#).

Work Placements

There are a variety of opportunities to undertake work-based learning and placements either during or as part of your studies. Many courses may also be taken as a four-year variant to include a placement year. If undertaking a placement year, it is your responsibility to find a work placement, however, the Industry Engagement and Placements Team can help prepare and support you and will advertise relevant placements. If you are interested in undertaking a placement year, or other work-based opportunities that may be available to you and your course, contact the [Industry Engagement and Placements team](#). If you have a Student visa, please be aware that the Immigration Rules restrict the length of placements and the type of work you can do.

Upon successfully securing a placement you need to inform the Industry Engagement and Placements team by completing a [secured placement form](#). This is required in order to begin the placement approval process. Please note without approval from the Industry Engagement and Placement team you will be unauthorised to commence a placement.

For extracurricular opportunities, [Careers Services](#) are here to help. Use [Chart My Path](#) to find your personalised recommendations at Essex, and check out [CareerHub](#) for part-time jobs, internships and career development support.

The Department of Psychology gives students the opportunity to work alongside academics on an ongoing research project in our Research Experience Scheme ([RES](#)). Placements last for one term, and you'll volunteer for five hours per week, helping a researcher with tasks including library research, construction of materials for

experiments, experiment design, and the collection, entry, organisation and analysis of data. The scheme is open to undergraduate and taught postgraduate students.

DBS Checks for Placements

Some placements may require a DBS check where you are engaging in regulated activity with vulnerable groups. This may include placements that are core, compulsory or optional, depending on the relevant module. Some activities may be carried out on an ad hoc basis for research purposes only, which are not required to meet the learning outcomes of the module or course, but will help inform your learning. More information about the DBS check process can be found on the [University's DBS webpages](#).

Module Materials

Online reading lists for your modules can be found via the module Moodle page alongside other information and module materials.

Teaching timetable

Every student has a [personal timetable](#) published at the start of term which shows when and where your teaching is taking place, and Zoom links if teaching online. You can access your timetable on most mobile devices, including smart phones and tablets. You will need to have registered and activated your University of Essex log-in and selected all of your modules (if applicable) before you will be able to access your teaching timetable.

If you wish to report a timetable clash or request a class change, you should do so via the [online timetable](#).

During Welcome Week (week 1) you may find that your timetable is blank as teaching normally commences week 2. **Please be aware that there may be changes to the location of teaching during the year, so regularly check your personal [online timetable and Essex email](#) for up to date teaching information.**

Information about teaching timetables, including requesting a class change, reporting a timetable issue and accessing your individual timetable can be found on the [University's website](#).

Reading weeks

The Department has two reading weeks in Year One, weeks 5 and 19.

Recording your attendance

We monitor your attendance at teaching sessions on campus using your [student card](#) and an electronic system of card readers. You must tap-in at a reader within 15 minutes of the teaching session start time for your attendance to be recorded accurately. Your attendance at online teaching sessions is monitored by reviewing your logins to sessions on Zoom. Once again you must log in within 15 minutes of the event start time for your attendance to be recorded. You are expected to attend all of your mandatory sessions on [your individual timetable](#) and [report an absence](#) if you are unable to do so. If you have a Student visa, you must attend all your timetabled teaching events in-person where this is available. Attendance at a teaching event via Zoom where the session was also delivered in-person will count as failure to attend. If you fall below the Home Office expectations we **must** take action, and this can include withdrawing our sponsorship.

It is your responsibility to remember your student registration card and to tap-in correctly. [Lost or faulty cards](#) can be replaced at the Student Services Hub.

Please contact your Personal Tutor, department staff or the [Student Services Hub](#) for advice and support, particularly if you are going to be absent for several weeks.

Making changes to your study

Changing your course

If you are thinking about changing course, you will need to do so by a [certain date](#) and should first speak to your Senior Student Administrators in the department and personal tutor. They will be able to provide advice about the things you should consider before changing your course. If you are thinking of undertaking a placement year or year abroad, you should check the requirements and any potential visa implications for these programmes by contacting the [Industry and Placements Team](#)

or [Essex Abroad Team](#). Students with a Student visa may not be able to change their course without first obtaining a new visa, from overseas, if eligible.

Thinking of leaving or taking a break?

You may experience doubts at some point during your studies, if you're thinking about leaving Essex, we're here to support you and give you the advice you need to help you make an informed choice. You can contact your department, Personal Tutor or Student Services Hub to speak in confidence about your concerns, and also the [different options available to you](#) and the impact they may have.

You should also be aware of how your funding may be impacted if you choose to take a break. You can do this by contacting the Funding Team – funding@essex.ac.uk.

Library & Cultural Services

Library Services

The Library aims to provide all the resources you will need to succeed in your course, via online reading lists and access to extensive collections of books, journals and a variety of other resources, both on our shelves and online. The Library team can help you learn how to search effectively so you can find appropriate resources for your assignments. They can also provide advice on [referencing](#), academic integrity, evaluating sources and more. Our [Skills at Library](#) guide provides a range of online support in these areas, and our [subject guides](#) for each department provide subject-specific guidance and resource recommendations. In addition, the Library offers a programme of '[Workshops at Library](#)' sessions which cover key information and research skills, including searching for information, checking and evaluating sources and referencing. If you have any questions about library services, there are a range of ways you can get in [touch with the team](#).

At our Colchester Campus, the **Albert Sloman Library** on Square 5 has a variety of study spaces, including individual and group work areas. The Library offers a wide range of learning resources, online and in print, with a dedicated Helpdesk, live chat and the opportunity to book appointments with experienced Library staff to help you through your studies and into whatever you choose to do after graduation.

See the [Library website](#) for the latest information on all our libraries and the services available, including opening hours.

Art Exchange

Placing students at its core, [Art Exchange](#) is a place where art, artists and the campus community come together. Our programme of exhibitions and activities are here to get you inspired, make new friends – or simply to chill while having fun making art.

We show international art by established and emerging artists throughout the year, building up a dynamic programme by working closely with the campus community, as the art on our walls is co-created by students and responds to what matters to them.

Alongside exhibitions, our exciting programme of events and art classes and are free for students. Led by professional artists, they support students' creativity, confidence and wellbeing - as well as being great fun!

We want everyone to get involved and enjoy great art.

Lakeside Theatre

The [Lakeside Theatre](#) provides a warm, welcoming social hub of creativity at the heart of the University to foster the living learning community.

We produce a programme of diverse, dynamic and accessible live performances of theatre, music, comedy, dance, workshops, artist development and live art for audiences on and off campus. It is a learning and social experience for students that will deliver key life skills to enable them to respond to a rapidly changing world with creativity and personal and cultural confidence. Students' wellbeing remains at the forefront of what we do which is why we provide opportunities for enjoyment, inspiration and creativity.

The theatre and technical facilities are kept up to date, for student use in education and further skill building in modern practices nationally and internationally.

Publish with the Essex Student Journal

If you are looking to develop and gain recognition for your writing skills, the Essex Student Journal provides the perfect platform for you to showcase your work and gain valuable experience in academic publishing and the peer review process.

Our multi-disciplinary journal is run by and for students at the University, publishing the hard work of our students and giving you the ability to improve your writing through feedback from peer reviewers.

Not all universities have a Student Journal - this is a unique opportunity for you to publish a paper in your name and build your academic portfolio early in your career. We accept a wide range of submissions including essays, case studies, research papers, dissertations, and academic blog posts.

Join our community of student writers to develop new skills and the best practices in writing. Find out more about the Essex Student Journal and embark on your academic publishing journey today. If you have any questions, get in touch with the Journal Team via journal@essex.ac.uk

Academic Skills Support

Skills for Success are here to support you with everything that you need to do well in your studies that is not directly related to your course content – in other words, the skills that you need to be successful.

We are committed to ensuring that every student is able to get the most out of their academic study and achieve their potential on their course, and provide a range of embedded teaching, [workshops](#) and [1:1s](#) on:

- [Academic writing](#)
- [Maths and stats](#)
- [Digital Skills](#)
- [Research](#) and [referencing](#)
- [English language](#)
- [Exam revision](#)

For more information, please contact skills@essex.ac.uk.

Departmental Support

Skills and support, such as academic writing skills and numeracy, are embedded in your Psychology modules. Seminars, support classes, and workshops provide additional support and skills training. Some of these events run in tandem with the Skills for Success Team.

Proofreading services

Before considering the use of proofreading services, all students should first discuss their work with their personal tutors. Many students seek ‘proofreading’ services at some point during their studies, but different types of editing can occur under this name which may not be appropriate in an academic context where work is assessed and could potentially qualify as an [academic offence](#). The University is keen to ensure as far as possible that students understand what [proofreading work should entail](#) and the acceptable boundaries to which any proofreading or editing must adhere to.

All students should ensure that any agreement entered into with a proofreader conforms to the [University’s policy and guidance on proofreading](#).

Language classes

Academic English Support classes

Skills for Success runs a range of [Academic English support classes](#) throughout the year, which all new students who have English as an additional language are invited to enrol on. These classes are free, voluntary and designed to help students improve their language proficiency and maximise their existing language skills in an academic context.

Options include 8 week or 4 week modules and one-off, bookable sessions. You will be emailed on registration, or can contact us at any time at skills@essex.ac.uk.

General English classes for beginner/intermediate/advanced learners (GEC)

The [Department of Language and Linguistics](#) offers the wider University of Essex community the chance to improve their English language skills through our General English Classes. These classes are available to:

- Dependants and close family members of students and staff at the University of Essex
- International staff at Essex who may want to work on their general English and fluency skills
- International students currently studying at UEIC Kaplan
- International students currently studying at both UG and PG level at Essex who wish to develop their language skills
- Refugees and asylum seekers who hold an ARC card, or a letter granting them Immigration Bail

The classes, which take place at the Colchester Campus, will enable you to meet people from other countries and cultures and will help you develop your language skills. These classes are free and are taught at three basic levels: Beginner (A1/A2), Intermediate (B1/B2) and Advanced (C1/C2) and will focus on listening, speaking, reading and writing. Throughout the year, you will have a unique opportunity to develop your conversation skills, by reflecting on real-life examples of how language is used in context.

Learning a Language

Learn a language at Essex to increase your global and cultural awareness. Language learning can give you the confidence to work and travel internationally, expand your options for studying abroad, and get a competitive edge when you're looking for a job. There are a number of ways to do it, so [look online](#) to discover the best option for you.

Assessment and Academic Integrity

All schools and departments at the University employ a variety of assessment methods designed to ensure that the learning outcomes of each module, and course, have been successfully met.

Rules of Assessment

The [Rules of Assessment](#) are used to calculate your results. There is a main set of rules for [Three-Year](#) and [Four-Year courses](#), but some departments also have additional variations to the rules, which must be met. These are published alongside the Rules of Assessment for your year of study.

In the Department of Psychology we do not have a variation to the Rules of Assessment:

Each module you take has a credit value which you are awarded if you successfully complete the module. You need to obtain a certain number of credits to be awarded your degree, and the Rules of Assessment and the Framework for undergraduate courses give you more information about this.

The following is only a summary of the key points. You should read the rules and make sure you understand them. If you need advice, ask your personal tutor, departmental administrators, or [SU Advice](#).

Core, compulsory and optional modules

To understand the requirements to pass your course, you need to know the status of the modules that you are taking. You can find details of the status of your modules in Section C of your programme specification via [My Essex](#).

Core	You must take this module	You must pass this module. No failure can be permitted.
Compulsory	You must take this module	There might be limited opportunities to continue on your course/be eligible for your degree if you fail it.
Optional	You can choose which module to study	There might be limited opportunities to continue on your course/be eligible for your degree if you fail it.

Most modules in each year must be passed, with only a small number of credits, if any, being allowed to be failed in the degree. For the Honours Degree this is 30 non-core credits across the whole degree.

Academic Integrity and Academic Offences

The University expects students to complete all assessment with honesty and integrity and to follow our [conventions for academic writing](#) (including appropriate referencing of sources) and ethical considerations. If you don't meet these expectations, then you may be charged with having committed an [academic offence](#), a matter the University takes very seriously.

It is your responsibility to make yourself aware of the regulations governing examinations and how to correctly prepare your coursework. An academic offence can take place even if you didn't mean to commit one, and examples include plagiarism, using Artificial Intelligence such as ChatGPT to write all or part of assignment unless specifically permitted to do so, falsifying data or evidence, and communicating with another candidate in an examination.

Methods of Assessment in the Department of Psychology

Whether a module is core, compulsory or optional, all methods of assessment are compulsory. If you do not complete coursework or attend examinations, and do not

have extenuating circumstances to support your non-submission or absence, then you are at risk of being withdrawn from the University.

Psychology modules offer a range of assessments each tailored to assessing the learning outcomes of the module, which can include exams, lab reports, essays, in class tests and oral presentations.

Coursework

Coursework is compulsory in all modules and failure to participate in coursework is interpreted as evidence of lack of academic progress. Your academic progress is monitored throughout the year. In severe cases, students with poor academic progress can be required to withdraw from the University (even before the final examinations).

Preparation of assignments

It is important that you prepare your assignments in the correct format, as advised by your module coordinator (i.e. Module Coordinator; see also [Undergraduate Assessment Guide](#)). All coursework is submitted online with a cover sheet.

Samples of coursework

Where possible, sample of coursework are provided within the module.

Referencing in coursework

Respecting authorship through good academic practice is one of the key values of higher education in the UK. Referencing is how you acknowledge all sources used within a piece of work. You must reference all work used whether cited directly (quotes), or indirectly (paraphrasing and summarising).

Referencing allows you to give credit to other's ideas, work, research, theories, concepts, outcomes and results, and demonstrates your breadth of reading and knowledge on a subject. If you do not reference properly, this could amount to [plagiarism](#), which is an [academic offence](#).

There are styles of referencing which will determine exactly how you format your reference. Your departmental referencing style is APA. You must use this referencing style. Guidance on your referencing style is available [online](#), including an [interactive referencing tutorial](#). You can also take the [Academic Integrity course](#) on Moodle.

Only Microsoft word or PDF files should be uploaded to FASER unless otherwise specified.

Undergraduate Assessment Guide

For more information on how to work on your assessments, please reference the [Undergraduate Assessment Guide](#).

Submission of coursework

You should submit all coursework online via [FASER](#) – the University’s online submission system. You are encouraged to log on to FASER at the start of the year so that you understand how it works before you reach your first deadline. There is a trial module and deadline available for you to use as a practice submission, as well as helpful guidance on [how to use FASER](#).

You can upload as many draft versions of your work as you like and are encouraged to use this as a safe and secure area to store your coursework. This can help to avoid the problem of your computer crashing at the last minute and your important files being lost. In cases where multiple versions are uploaded you will **need to make any which you do NOT want to be included in the final submission a ‘draft’** otherwise just the most recently uploaded file will be taken as the final version. The maximum file upload size is **50MB**.

Problems with FASER

If you have technical difficulties, please contact the [IT Helpdesk](#) as soon as possible to find out if this is a system issue or whether it may be a problem with your computer. This will count towards your claim when submitting a late coursework extenuating circumstance form should you need to. If you are confused or unsure how to upload, or are having any non-technical difficulties you should contact your Undergraduate Administrator.

Late submission of coursework

At the University of Essex we have a single policy for the late submission of coursework in undergraduate courses: all coursework submitted after the deadline will receive a mark of **zero**. No extensions will be granted. The policy states that the mark of zero shall stand unless you submit satisfactory evidence of extenuating

circumstances that indicate that you were unable to submit the work by the deadline but have been able to within the relevant Late Submission timeframe, usually 7 days.

Where a student is unable to undertake the assessment by the deadline, and it is deemed impossible to consider a late submission request due to the nature of the assessment (e.g. absence from in-class tests, practical assignments and presentations), an [extenuating circumstances](#) form should be submitted which will be considered by the Board of Examiners.

Return of coursework

Your coursework marks will be returned electronically and you will receive an e-mail when it is ready to view. For certain assessments, your coursework may be marked in hard copy, but you will receive your mark electronically. You should also collect your hard copy so that you can see your feedback. A version of your essay or report with comments from the marker will be uploaded to FASER once the mark is released as well.

This is important because (a) you can get timely feedback that may help improve other assignments, (b) you can get a gauge as early as possible as to the quality of work that you are submitting, (c) you can gain additional feedback from the marker, if necessary.

Ethics in research

All research involving human participants and animal subjects, whether undertaken by the University's staff or students, **must** undergo an [ethics review](#) by an appropriate body and ethical approval **must** be obtained before it commences. You should first read the [Guidelines for Ethical Approval of Research Involving Human Subjects](#) or [Guidelines for Ethical Approval of Research Involving Animals](#) and then submit an Ethical Approval application form via [ERAMS](#). You should be aware that ethical approval cannot be granted retrospectively so it is very important that you make your application before you start to recruit participants or collect data from them.

Examinations

In 2023-24, examinations will either be remote via FASER, Moodle or Perception, or on campus in an invigilated setting. To find out whether your exam is in-person or remote, you can check the [module directory](#). Your personal exam timetable, when available, also has this information.

Exam timetable

The University [publishes the dates for exam periods](#) at the start of each year, including the date on which your personal exam timetable will be issued for each period. A link to your personalised exam timetable will be sent to your Essex account when it is ready to view.

Exam Period	Exam Dates	Timetable Publication Date
Christmas Vacation	Tuesday 2 nd January 2024 to Friday 12 th January 2024	Late November 2023
Summer	Monday 13 th May 2024 to Friday 14 th June 2024	Mid-March 2024
September Resits	Monday 19 th August 2024 to Friday 13 th September 2024 (to be confirmed)	Early August 2024

Attending an in-person exam

You must bring your registration card and exam entry form to any invigilated exams on campus. You may not be allowed entry without these. You will be able to download and print your exam entry form when you view your personal exam timetable.

For exams that are more than 1 hour long, you will not be allowed to enter the examination room if you arrive later than 55 minutes after the start of the exam. If your exam is only 1 hour long, you will only be admitted up to 10 minutes after the start of the exam.

Attendance at examinations, whether remote or in-person, is compulsory and if you do not attend them and do not have [extenuating circumstances](#) then you are at risk of being withdrawn.

Calculators in Examinations

If you are allowed to use a calculator in your examinations, the only models you are permitted to use in invigilated exams are the **Casio FX-83GT** or **Casio FX-85GT** series (CW, X or PLUS).

The only exception is for certain **Finance** exams that require a **financial** calculator, in which case you may use the **Hewlett Packard 12c** (all variants) or the **Texas Instruments BAII Plus** (including the BAII Plus Professional).

Open and closed-book exams

You should check the module directory to see whether your exam is open or closed-book. Your department will provide further guidance on how to prepare for your exams and on what materials can be taken into an open-book exam. You should also check the information published on the exam web pages.

Sample and past papers

Where possible, sample of past papers are provided within the module.

Revision classes

Revision classes can be found in your timetable if they are being held.

Exam stress

[Exams create stress](#) for most people, but there is a lot that you can do to prepare for them and help manage the levels of stress associated with exams. The University's Skills for Success Team offers a series of [Exam Workshops](#) which are run by specialist staff. These sessions cover revision planning and techniques, as well as sessions on relaxation and how to cope with stress. Staff in the [Student Services Hub](#) can also provide sessions on stress management if required.

Access to your exam script

If you want to see your script for an invigilated exam, you should make the request to the department responsible for the module within four weeks of the exam. The department should either: let you see the script in the presence of one of the staff responsible for teaching the module *or* give you a copy or summary of the examiners' comments on your performance. If you need to undertake an exam as part of reassessment on a module, your department will provide you with written feedback on any elements being reassessed.

Feedback on your exam script will not include a discussion of the mark. The marks will have been approved by External Examiners and ratified by the Board of Examiners.

Moderation and marking

The [University's Marking Policy](#) can be found online and includes our policy and procedure on the moderation of work.

Marking

All student work is marked in line with the University's Marking Policy. If your assessment is worth up to and including 40% of your module mark, it will be marked by one member of academic staff. If it is worth more 40%, then it will also be moderated. If the assessment is worth 30 credits or more, it will be marked by two members of academic staff. The full procedure and assessment marking requirements can be found in the [Marking Policy](#) – there is a useful flowchart in Appendix C to visually represent the requirements, and detailed definitions of marking and moderation within the policy itself.

Moderation

Moderation is a process separate from that of marking and provides additional assurance that the assessment criteria has been applied appropriately. When work is moderated, it means that a second member of academic staff takes a random sample of the work for a particular assessment and reviews the marks given.

External Examiners

External Examiners are academics from other universities, but may also be from industry, business or the relevant profession depending on the requirements of the course. They give an impartial view of the course and independent advice to ensure that modules and courses at the University meet the academic standards expected across UK higher education. You can find more information about the role of External Examiners on our [External Examiner roles and responsibilities webpage](#).

Re-marking of coursework

You may, under certain circumstances, have the right to [request a re-mark](#) of your coursework. Should you feel that your work needs to be reviewed and potentially re-

marked, you should first contact your department to advise you accordingly and assess whether you meet the criteria to be able to submit a request for re-marking.

If a request for a re-mark is accepted, your marks are **not guaranteed** to increase, however, **the mark awarded after re-marking will override your original mark**. Therefore, please be aware that in all incidences where coursework is re-marked, it is possible that your marks could go down as well as up.

Appeals

[Appeals on academic grounds](#) can be made following the meeting of the Board of Examiners and the publication of your results. There are limited grounds available to appeal on and strict deadlines to adhere to. As such, we strongly advise all students thinking about making an appeal to contact the [SU Advice Centre](#).

Feedback

Your coursework marks will be returned electronically and you will receive an e-mail when it is ready to view. For certain assessments, your coursework may be marked in hard copy, but you will receive your mark electronically. You should also collect your hard copy so that you can see your feedback.

This is important because (a) you can get timely feedback that may help improve other assignments, (b) you can get a gauge as early as possible as to the quality of work that you are submitting, (c) you can gain additional feedback from the marker, if necessary.

The Department hopes to turnaround feedback and marks in 20 working days.

If you need to undertake any reassessment on a module, your department will provide you with written feedback on any elements being reassessed.

The Board of Examiners

The Board of Examiners meet at the end of the Summer Term and use the Rules of Assessment to determine whether:

- you have passed the modules you have studied and can be awarded credits;
- you have met the requirements to progress to the next year of your course;

- you have met the requirements to pass your course and, where you have, the classification/citation you are eligible for.

If it is determined that you have not passed sufficient credits to progress to the next stage of study, or, for final year students, to graduate, the Board of Examiners will also determine:

- what reassessment you could be offered and when you can take it²;
- whether you must withdraw from your course, and your eligibility for an exit award.

Publication of results

The publication schedule for results can be [found on the website](#). You will receive an email to your Essex email account as soon as your results are published online.

Reassessment

You may only undertake reassessment if the Board of Examiners says that you may do so.

If you must undertake compulsory reassessment, whether coursework or examination, it is really important that you do this. If you do not, it is likely that you will be unable to progress with your studies at the University. The Board of Examiners will not consider permitting you to proceed carrying or trailing fails if you have not attempted the reassessment.

Reassessed modules are normally capped at the pass mark of 40 unless you have extenuating circumstances which are accepted by the Board of Examiners.

In the Department of Psychology, reassessment strategies are set on a per-module basis. Please review the reassessment strategy in the module outline for each of your modules for more details on their reassessment strategy. If you have questions, please reach out to the module coordinator.

² The Board of Examiners will not be aware of a student's immigration status. As a result, some reassessment options may be offered that are not compatible with individual student visa restrictions. Students should consider all options in conjunction with applicable visa restrictions.

Resit exams

[Resit exams](#) are usually scheduled to take place in late August and early September or 'out of residence' in the Summer of the following year. A considerable amount of useful revision material for each module is available on Moodle. Students can contact staff, particularly Module Supervisors for the modules they are resitting if they need help with revision or specific queries (do not leave this until the last minute as staff availability will be reduced throughout the summer). Staff can give individual feedback on summer exam performance, if requested.

Exit Awards

If you decide to withdraw from your course before you finish, or you do not meet the requirements to be considered for your full award, you may be awarded an exit award which may be at a lower level, if appropriate.

Extenuating Circumstances

[Extenuating circumstances](#) are circumstances beyond your control which cause you to perform less well in your assessment than you might have expected, or in some instances, may prevent you from submitting coursework or attending an exam entirely. In general, valid extenuating circumstances will be of a medical or personal nature that affect you for any significant period of time and/or during assessment.

If you do need to make an extenuating circumstances claim, you should first read the guidance very carefully and seek advice from [SU Advice](#) or the [Student Services Hub](#). Please be prepared that you may need to include supporting evidence with your claim. Extenuating Circumstances claims must be submitted via MyEssex by the [appropriate deadline](#).

Your department will review your claim at an Extenuating Circumstances Committee and determine whether it will be accepted or rejected. The [Board of Examiners](#) will determine an appropriate course of action, such as permitting further reassessment opportunities for uncapped marks. Please note that the Board of Examiners cannot award extra marks even where there are serious extenuating circumstances.

Computers, Learning Technologies and your Information

Computers

Using a campus computer

If you [need to use a computer on campus](#) our computer labs are the perfect place to study or work. We also have group study pods which are ideal for group projects. Many labs stay open until late and some are open 24/7. Labs may be booked for teaching so it is best to check availability first.

IT Help and Training

You can search the [Student Directory](#) for more IT information, including [software available](#) to students, help and support with your Essex account, account storage and printing.

Need some help with Word, Excel or EndNote? IT Training is available to book through CareerHub. You also have free access to [LinkedIn Learning](#), an online video training platform, using your Essex IT account.

If you can't find what you're looking for, or if you need to talk to someone, contact the [IT Helpdesk team](#) who can assist you further.

Learning Technologies and Systems

Learner Engagement Activity Portal (LEAP)

[LEAP](#) is our student centred, personalised engagement tool. LEAP displays [your engagement](#) with university resources and activities. An algorithm within LEAP gives a weighting score to each activity and combines your use of these resources and activities to produce an overall engagement indicator. There are 5 engagement indicators (high, good, partial, low and very low) which will help you map and better understand your engagement pattern over time based on your class attendance, utilisation of Moodle etc. Full details on the resources included in LEAP, the engagement ratings and how LEAP uses your data can be found on the [LEAP webpage](#).

By providing you with a more holistic view of your studying experience, LEAP offers you the opportunity to take control of your own learning and make more informed choices about your studies, enabling you to:

- Reflect on your academic activities and overall engagement to make informed decisions about your academic studies
- Review the notes created in LEAP from meetings with Tutors or other university staff
- Check your attendance and ensure the information is correct

Tutors and other university staff may use the information in LEAP to:

- Suggest ways you could achieve better outcomes
- Check that all is well and offer information, advice and guidance
- Help you in areas of your studies that you find challenging

The University has a [Student Engagement Policy](#) which provides a structured approach based on support and mutual decision-making to maximise the success and achievement of every student.

Moodle

[Moodle](#) is our online learning environment. It holds key course and module materials, discussion forums, chat facilities, quizzes, surveys, glossaries and wikis released by your lecturers. You can find the Psychology Moodle page [here](#).

FASER

[FASER](#) is our **online coursework submission and feedback system**. Use it to check coursework deadlines, upload coursework and receive electronic feedback all in one place.

Online reading lists

Reading lists can be accessed [online](#). Use this service to find out the details of each week's reading and to access resources through the Library.

Listen Again

Did you miss something? Our [Listen Again](#) digital recording service lets you listen again to lectures, so you grasp every detail. It's available in teaching rooms or lecture

theatres where you see the sign. Lecture videos are normally uploaded on Listen Again 24 hours after the lecture.

Zoom

You can use Zoom to join online lectures delivered by the University or attend online meetings and tutorials. If your lecture or class is going to be online, the link to join will be available in your individual timetable 48 hours before the class.

This [quick start guide](#) gives you an introduction to the essentials of joining and participating in a Zoom webinar or meeting.

Your information

Changes to your information

During your period of study at Essex, you may wish to be known by a preferred name or update your legal name on our student record database (ESIS) if your circumstances change. It is important you keep your information up to date, which you can [manage and update online](#).

Your personal information

We collect and hold lots of information about you, your course, and your progress so that we know who you are, what you're doing, and how you are getting on. This means we can support you and also improve our services to reflect the need of our students.

All information about you is kept securely, and access to your information is only given to staff who need it in order to do their job. You have a [right to ask for copies of information](#) we hold about you.

To find out more about what information we collect, what we do with it, who gets to see it, and your rights under the Data Protection Act 2018, read our [Privacy Notice for students](#).

Student Voice

At the University of Essex, the views, ideas and feedback of our students are at the heart of what the University does. The time students take to offer feedback is hugely appreciated and this feedback, both positive and developmental, is used to help make short and longer-term improvements, both to the experience of current students, but also for Essex students of the future. You can do this in a number of ways at Essex through your [Student Voice](#).

Student Representatives

You can contact or volunteer to be a [student representative](#) who represent the voice of fellow students in departmental Student Voice Groups (SVG) and other University level committees.

Student Voice Groups

[Student Voice Groups](#) (SVGs) are made up of [student representatives](#) and members of staff. SVGs typically meet once per term and provide an accessible arena for students to discuss with staff issues connected to teaching, learning and student support. They also provide an opportunity for the department or school to consult with students and receive feedback on new proposals. Such proposals are recorded in SVG logs, where specific details are requested in order to facilitate the feedback.

Student Surveys

[Student satisfaction surveys](#) enable the University to gauge overall satisfaction amongst students. When the results have been reviewed and analysed, the University can then enhance your experience of learning at Essex by closing the feedback loop.

National Student Survey

The [National Student Survey \(NSS\)](#) is an independent survey commissioned by the Office for Students aimed mainly at final-year undergraduate students. The survey provides students the opportunity to provide feedback on their University course and experience. The feedback you provide will be used to help shape the future for your fellow students and published on the [Discover Uni](#) website to help prospective students make informed decisions about where and what they want to study.

UK Engagement Survey (UKES)

The [UK Engagement Survey \(UKES\)](#) is a national survey for undergraduate students. It invites you to reflect on your time at University so far in relation to your course and wider learning experience. The survey is run each spring term and is open to first, second and some third/final year students.

We're keen to make sure students have the best possible experience while studying at the University. To do that we need to know what we are doing well and what we can do better. The survey is a chance to reflect on how you study and what might help your studies in future. The results also help the University and Students Union to make changes that will improve what we do in future and to make sure we keep doing the things that are of value to students.

If you're eligible to complete the survey, we will contact you to invite you to take part.

Student Module Feedback

Every year, we will ask you to complete [Student Module Feedback](#). This survey allows you to feedback on each of the modules you have studied. Receiving feedback at this level is critical for the University to understand what works well, and what could be improved, from the perspective of students. All feedback will be summarised and discussed by SVGs and will inform reports written for central University committees as part of our quality assurance processes.

There are also many [other satisfaction surveys](#) taking place, to ensure students are happy with the services the University of Essex provides. From time to time you will be invited to participate via an email.

If you have some feedback but don't know who to tell, email: studentvoice@essex.ac.uk

Your Department will also welcome your feedback. They will have a range of quick feedback mechanism for you to use. Contact your departmental office if you are not sure what these are.

You Matter

We know university life can throw up all kinds of concerns and questions. Everyone has [mental health](#) – sometimes your mental health may be good, other times it may be not so good. It could be stress related to deadlines, general worries or concerns about friends and family members. Whatever is worrying you, if you need some information, advice or support, the University offer a wide range of services and support to help you.

Student Services Hub

If you need practical advice, a confidential conversation, or general information and guidance on University life, no matter what the issue is, the [Student Services Hub](#) can help. You can find out about health and wellbeing, accommodation, careers services, money matters and much more. Your questions matter and you'll get answers from our team of experts.

To Contact the Student Services Hub please use this link to access our web pages and talk to us on Live Chat: [Ask the Hub](#)

Support for students with disabilities or additional needs

We encourage all new students with a disability, long term medical condition, specific learning difference or mental health condition to disclose and register with the [Student Wellbeing and Inclusivity Service \(SWIS\)](#) so that we can plan how best to [support you in your studies](#).

If you are care experienced, estranged from your family, primary carer and/or University of Sanctuary student please contact the Student Wellbeing and Inclusivity Service (SWIS) for [further information](#) about support that may be available to you.

Financial Support for students with disabilities or additional needs

UK students may be eligible for a [Disabled Students' Allowance grant](#). If you are not a UK student and you have a disability, you may be eligible for [other grants and funding](#). We would recommend that you [contact the Student Services Hub](#) to discuss all the options that may be available to you, as well as for general advice, support and information on health and wellbeing issues.

We also offer bursaries for UK students who are [Care Experienced, Estranged or have Refugee status](#).

Personal Emergency Evacuation Plans (PEEP)

If you have a permanent or temporary disability that may mean you have difficulty in evacuating one or more areas, you can arrange for a [Personal Emergency Evacuation Plan \(PEEP\)](#).

Essex Access Forum

The [Essex Access Forum](#) is a university-wide discussion and advocacy forum and consultation body working to support excellence in all aspects of physical and non-physical access at Essex (student education, staff employment and visitor experience). Membership is open to both staff and students, with and without disabilities.

Seeing a Doctor

If you're studying on a course for more than six months, you're required to register with a local doctor. Our Colchester Campus has its own [health centre](#) or you can use the [NHS Choices postcode](#) finder to find your nearest doctor. If you require emergency medical or mental health services, there are a [number of options available](#) both through the NHS and also the University, regardless which campus you are studying at.

Counselling services

Our University offers a wide [range of services and resources](#) to support all of our students. with a variety of counselling opportunities.

If you feel you would benefit from support, including counselling, please [contact your Student Services Hub](#). You can find more information, including the full range of counselling services available to you.

Wellbeing drop in

The Wellbeing Assessors provide support to students with anything affecting their wellbeing, mental health and/or disability. You can speak to a Wellbeing Assessor for support and advice at our wellbeing drop-in sessions in person. If you would feel more

comfortable with a telephone or Zoom appointment, you can still request this via our [online appointment form](#).

UK Immigration Advice and Guidance

[Immigration advice and guidance](#) is regulated in the UK by the Office of the Immigration Services Commissioner (OISC) and can only be given by those that are authorised to do so. We publish lots of information and guidance on our website for students and you can contact one of our authorised advice services via the 'ask us a question' section for further advice about the UK's student Immigration Rules.

Money management

Financial Support Officers in our [Student Services Hub](#) and our independent [Students' Union Advice](#) can provide [money management and budgeting advice](#) and can talk through any financial issues that you may be experiencing and how best to tackle them. You can also ensure that you keep your finances on track by working through some free online money management modules offered by [Blackbullion](#).

If you get into financial difficulty, you should get help and talk to someone **as soon as possible**. The sooner your problem is identified, the sooner it can be solved. You may be eligible to [apply for financial support](#) to assist you with short-term unexpected and unforeseen costs while studying at Essex.

Funding Opportunities

There are lots of funding opportunities available to UK, EU and International students offered by the University and by external companies and organisations. This may be in the form of a student loan, a scholarship, or a bursary. You can find out more information, including what you may be eligible for on the [UG Scholarships and Funding webpage](#).

Students' Union Advice

Our [SU Advice](#) service also offers free, confidential, independent and impartial advice on many issues that might be affecting you. Our friendly, trained staff are on hand to support you throughout your time at Essex. You can speak to us about Academic processes and procedures, representation at University meetings, student UK visa extensions, housing, complaints, welfare and consumer issues.

Colchester students – suadvice@essex.ac.uk; 01206 874034

Southend students – suacsou@essex.ac.uk; 01702 328235 (term time only)

Loughton students – suaclou@essex.ac.uk; 01206 874034

We also have our very own letting agency [SU Homes](#) designed to offer help and support for students to find off campus accommodation.

Residence Life

Our [Residence Life team](#) is here to help you settle in and support you during your time living on campus. Each Residents' Assistant (RA) is assigned an area and will aim to get to know you, provide advice and support with any wellbeing issues and organise a range of social activities to help you connect with others. Find your RAs contact details on your flat kitchen poster if you live on campus. You can find out about all our exciting events by following us on [Facebook](#) or by checking out the University [Events page](#).

Religion, faith and beliefs

We're proud of our vibrant and diverse [multicultural community](#) and welcome everyone, of all faiths and none. The calm, friendly and supportive atmosphere in our Faith Centre is a welcoming place for staff, students and the wider community to meet, interact and engage with each other.

Harassment support

We are Essex. We pride ourselves on being a [welcoming and inclusive student community](#). We offer a wide [range of support](#) to individuals and groups of student members who may have specific requirements, interests or responsibilities – to help you fulfil your potential.

We encourage a culture of dignity and respect. We're committed to upholding an environment that's free from any form of harassment or bullying. Though rare, these incidents can occur and if they do our [Report and Support Service](#) of trained Harassment Support Workers are on hand to help.

Health and safety on campus

Our campuses are generally very [safe environments](#). We want to ensure that things stay this way. In order to achieve this, we work closely with local agencies including

the police and borough councils. Take a look at our website for [general information and advice](#).

Please familiarise yourself with [fire safety and emergency evacuation procedures](#) for your accommodation, work or study location. If you have a permanent or temporary disability that may mean you have difficulty in evacuating one or more areas, you can arrange for a [Personal Emergency Evacuation Plan \(PEEP\)](#).

Please take note of our [advice on the safe use of electrical items and prohibited electrical items](#) in residential and non-residential areas.

All students residing on campus **must** complete the Moodle [Fire Safety Course for Residents training](#).

If you have any health and safety concerns or need to report an incident, please use the [University's reporting service](#) to notify us.

Making a Complaint

The University is a large community engaged in many activities of both an academic and non-academic nature. From time to time, you may feel dissatisfied with some aspect of your dealings with the University and, when that happens, it is important that the issue is dealt with constructively and as quickly as possible without risk of disadvantage or recrimination.

The University aims to resolve complaints quickly and informally in accordance with the [Student concerns and complaints procedure](#) which can be found on our website.

Student Development

Careers Services

The [Career Services](#) team offer a programme of information, advice, guidance and support through events, workshops and one-to-one sessions. With teams dedicated to supporting work-based learning, placements, internships and professional development, we'll provide the information and support you need to thrive.

CareerHub

Find hundreds of part-time jobs, internships and graduate vacancies, book on to careers events and workshops, take career assessments, practice your interview skills, build your CV, and connect with employers on [CareerHub](#), the online Essex careers and jobs portal. Login with your Essex username and password.

Get experience

Develop your skills and showcase your potential through our extracurricular offer:

- Find the right activity for you with **Chart My Path**, and to get recognised on your HEAR for your extracurricular achievements with the **Big Essex Award**. Log into [GradIntelligence](#) to get started.
- Looking for your first paid experience in the field/sector you want to graduate into? Discover [Frontrunners](#), our on-campus internship programme.
- Discover paid internships with local businesses that have been exclusively designed for Essex Students – sign up to [Essex Interns](#) to find out more.
- Apply for [Career Mentoring](#) and be matched with an industry expert to expand your network, learn from their experience and explore options for your future.
- Are you first-in-family to university, or from a low-income household? Join **Breaking Barriers**: the community empowering Essex students to build the future you want, no matter what your background.
- Calling our Black students! Unlock your academic potential and cultivate research skills through our digital **Black Researchers' Hub**. Explore on **Black Researchers' Hub**. Explore on [GradIntelligence](#) today.

Volunteering

Join the [vTeam](#) and be the difference. There are plenty of opportunities to **volunteer** during your time at Essex. The vTeam, run by the Students Union, is a fantastic opportunity to meet new people, make friends, give something to the local community, and gain valuable skills.

Get Work Experience

[Frontrunners](#) is the University's in-house internship programme, offering valuable, structured opportunities to students with little or no employment experience. With a wide range of part-time paid internships across university departments, this is your opportunity to gain valuable skills, knowledge and experience employers are looking for.

[Essex Interns](#) create paid internships exclusively for you as an Essex student. They're flexible too; part time during term time or full time in vacations. Sign up for Essex Interns to kick-start your career.

Departmental Seminars

Research Seminars provide a vibrant and intellectually rich research-intensive ground for both academics and students. Leading researchers with an international reputation are invited to the Department to present cutting-edge, state-of-the-art research in their field of expertise. Titles and dates will be announced near the beginning of each term. Brief outline of each talk will be posted online closer to the event and circulated via email the week before.

As part of a continuous research-led educational programme in our Department all undergraduates and postgraduates are very welcome and particularly encouraged to attend our Research Seminar events. Examples of past speakers include Prof Matt Lambon Ralph on the neural basis of conceptual knowledge, Prof Gina Conti-Ramsden on language development and disorders, Prof Philippe Schyns on visual information processing, Prof Wolfgang Klimesch on the functional role of human brain oscillatory activity, Dr Greg Maio on social values and Prof Charles Vincent on safety in the NHS.

In addition, the seminars will be presented by members of the Department including postgraduate research students. This might be a good opportunity for you to

discover your own research interests, familiarize with ongoing research in the department, and may be helpful when deciding how to rank your PS300 project supervisor preferences or chose the area of your MSc dissertation.

Participation in research

In the first year and second year, undergraduate students will be required to undertake some research training (details provided in lectures). For this training, you may **EITHER** choose to write an essay on an aspect of Research Methods **OR** you may choose to participate in 8 hours of departmental research.

Final year students are not required to participate in ongoing research in the department. However, it is expected that you will help your fellow students doing final year (PS300) projects by participating for at least a few hours each term. One potential benefit for you is that it may give you the opportunity to ask final-year students how their projects are going and perhaps gain valuable tips and advice. Through the web-based sign-up system (SONA) you will also find paid opportunities to participate in research ongoing in the department. In general, willingness to participate in research will help students gain insight into problems of method and technique and to gain valuable understanding of what can be expected from the participants you will use in your own research work.

Research Experience Scheme

The RES is aimed at students who have an interest in gaining research experience. The scheme allows students to work together with staff members on ongoing research projects and in doing so develop practical skills in conducting empirical work in Psychology and consequently expanding their repertoire of employability and personal development skills. Student and staff member participation is entirely voluntary. To find out more visit this [webpage](#).

Undergraduate Research Opportunities Programme (UROP)

UROP or the Undergraduate Research Opportunities Programme is our scheme for undergraduate students from the University of Essex to become trainee researchers and to become part of the academic community here at Essex.

UROP students in all departments will have the opportunity to carry out research in placements alongside established academics and to learn first-hand what being a researcher really means. To find out more visit this [webpage](#).

You Are Essex

Graduation and Awards

Once the Board of Examiners has met, it can take between 7-10 working days for your results to be published. The University's [publication of results schedule](#) can be found online and you will be notified once this information is available. As soon as your results are ready, you will be sent an email and directed to a password protected web page. You will be able to see your marks obtained and any decisions that you must make in order to progress to the next stage of study.

Award documents

You will be able to access your full academic transcript electronically via your [Higher Education Achievement Record \(HEAR\)](#). Your [Higher Education Achievement Report \(HEAR\)](#) not only showcases a full record of your academic achievements, but also any activities you have undertaken and logged through the [Big Essex Award](#), and any other awards and prizes that you may have received.

This will be updated after the successful completion of study each year, and final HEAR will be issued upon conferral of your final award.

Upon conferral of your final award, you will receive both an electronic and hard copy award certificate. Your electronic Certificate will be available on your [GradIntelligence](#) account within 5 working days of award conferral, and you will be contacted by the Graduation and Awards team regarding issue of your hard copy Certificate.

You will have full access to your GradIntelligence account for life. You will be able to share your HEAR and Certificate with employers and other universities by providing them with a University-certified record of your achievements.

Graduation ceremonies

The culmination of all your hard work! [Graduation](#) ceremonies take place at our Colchester Campus in the Ivor Crewe Lecture Hall with a departmental Reception held afterwards on campus. All eligible students studying at our Colchester, Loughton and Southend Campuses will be invited to attend their course's ceremony at the next

available Graduation. Confirmed dates for future graduation ceremonies are [published online](#).

We hold two Graduations per year: one in Spring and one in Summer. More information on the dates and ceremonies held for each Graduation, including eligibility and how and when to book your place at Graduation, will be published at the start of each academic year on the [Graduation webpages](#).

References

Requesting references from members of staff

If you require a personal reference, always ask permission from a member of staff before giving their name as a referee. You should consider from whom it is most appropriate to request a reference and who will be best equipped to evidence your character and performance in the subject.

For example, final year project supervisors, year organisers, and core course supervisors are likely to be more suitable than lecturers that have taught you on a first-year option course. Every reasonable effort will be made to meet a request for reference for a student who has undertaken study within our Department. Requests received from students who have graduated from the University within the last three years will be prioritised. Requests received outside of this period may, of course, be met if a member of staff is equipped with the necessary information and is willing to provide a reference.

It is always helpful if you can provide the member of staff with details about the course or job you have applied for and, if relevant, a CV or other summary of your qualifications and experience. Please try to ask for references in good time – it is not always possible for a member of staff to write a reference immediately.

Copies of references

A copy of any reference provided will be retained within our department for no longer than three years for taught students.

Alumni

Essex is forever and although your time here will fly by, you'll be part of the Essex family for life. When you graduate, you'll get an alumni card and join a community of

over 100,000 fellow graduates around the world. We'd love to keep in touch and invite you to our alumni events, networking and volunteering opportunities, as well as offer you special alumni benefits. Want to know more? Visit [our website](#).

We will be here for you wherever life takes you next. You might know the path you wish to take, but if you need help to reach your goals, our Careers Services Team offer information, guidance and advice on your different options after graduation. Careers support is for life as an Essex graduate and we'll be with you every step of the way. We are proud of our world-class research at Essex and your invitation to contribute is lifelong. As an Essex graduate, you can also take advantage of [generous discounts](#) on further [postgraduate study](#) and [postgraduate research degrees](#).

Whatever you choose to do, please stay in touch. We'd love to hear where your Essex degree has taken you.

What comes next?

The world is your oyster! The options and opportunities open to you as a graduate can sometimes be overwhelming. You might know the path you wish to take, but if you need help to reach your graduate goals, our Careers Services Team offer information, guidance and advice on your different options after graduation. Whether it's discussing different career paths, bringing your CV or LinkedIn profile up to date, or prepping for that interview you have worked all year for, we offer careers support for life, so we'll always be here for you.

We know you'll go on to great things, but you can always come back! As an Essex graduate, you can take advantage of generous discounts on postgraduate qualifications and degrees if you chose to return to study at Essex as a postgraduate student.

We are proud of our world-class research at Essex and your invitation to contribute is lifelong. If you do decide to stay on for further study with us, you'll develop extensive knowledge in your chosen area and learn from some of the top academics in the field. You can explore our incredible range of courses online.

Whatever you choose to do, please stay in touch. We'd love to hear about your achievements and discover where your Essex degree has taken you. In the Department of Psychology we offer the following courses:

- MSc Psychology
- MSc Cognitive Neuroscience and Neuropsychology
- MSc Research Methods in Psychology
- MSD Psychology (Masters by Dissertation)
- PhD

Find out more on our [postgraduate](#) and [Course Finder](#) webpages.

Academic career advice (for students)

Are you thinking of pursuing a career in academia, or would you like more information about this kind of career?. Speak to your year tutor or project supervisor. They will be more than happy to answer your questions and give you advice.

Do you find yourself excited to learn about psychology research? Do you enjoy reading research articles and find yourself eager to know about the results of a study? Do you enjoy statistics (even if you are sometimes intimidated or find it difficult)? In general, are you passionate about finding out first-hand the factors that shape human behaviour and cognition? If so, you may want to consider an academic career!

A career in academia allows you to teach and do research in the area of psychology that you love alongside other colleagues who are just as passionate as you. An environment that is stimulating, challenging and exciting coupled with following one's passions can lead to a long and rewarding career. To get started, check out the following road map (and keep in mind there are many, many sub-goals for each step, so don't get overwhelmed!):

Step 1: Is an academic career right for me?

A first step is to gain as much experience as you can with psychology research. Students are encouraged to attend as many research seminars and read as many primary research articles as you can to get a feel of your favourite areas. Can you see yourself doing this kind of research as well? You should also gain experience by

becoming active in doing research. The department's Research Experience Scheme (RES), Undergraduate Research Opportunities Programme (UROP) and Frontrunners all allow students to gain knowledge and experience of doing research while being guided by a supervisor on a variety of different topics in psychology. These experiences will help you determine if you feel really committed to an academic career as well as make your application for graduate study even more competitive.

Step 2: Graduate study

You will need to do graduate study for an academic career. You may choose to do a Masters before a PhD or go straight to a PhD program. There are different methods to accomplish this:

- Apply for PhD positions that are advertised online on academic job websites, such as [Jobs.ac.uk](https://www.jobs.ac.uk)
- Independently identify a supervisor who is enthusiastic to support your PhD studies and develop a project together

Whereas funding often accompanies the former method, applications for funding are often required for the second method via Research Council competitions.

Step 3: After Graduate study

Post-doctoral positions are often required for continuing on in academia. Similar to the PhD, the two main methods of securing a position are to:

- Apply for a post-doc position advertised online on academic job websites
- Independently apply for fellowship funding after having identified a supervisor who is happy to have you join his/her team

If you would like to acquire a first experience of research, or to develop your research skills further, there are many research schemes (paid and unpaid) for which you might like to apply.

- [Undergraduate Research Opportunities Programme \(UROP\)](#)
- [Research Experience Scheme \(RES\)](#)
- [Frontrunners and frontrunners plus](#)
