University of Essex Mathematical Sciences Winsten Scholarship 2016-17

The Winsten Scholarship is available to students applying to study on a PhD (MPhD) course in the Department of Mathematical Sciences. The Winsten Scholarship is named after Professor Chris Winsten, who was an internationally renowned mathematician that worked at the University for more than 25 years. His reputation is based on his application of mathematical and statistical ideas to areas of economics leading to the eponymous Prais-Winsten transformation still used by modern economists today and to the groundbreaking Beckmann-McGuire-Winsten (1955) approach to transportation economics. Professor Winsten had an intuitive geometrical approach that found solutions to difficult analytic problems. He left the bulk of his fortune to further the reputation of Essex mathematics and the Winsten Scholarship is key to that. One scholarship will be offered in 2016-17 and will be awarded to a student who can demonstrate an excellent academic background and the potential for future achievement. It will be awarded for each year of study during the standard minimum period of enrolment, subject to satisfactory progress.

TERMS AND CONDITIONS

These terms and conditions apply to the University of Essex Mathematical Sciences Winsten Scholarship awarded to a student entering our University in October 2016.

What does the award offer?
The award consists of a full Home/EU fee waiver or equivalent fee discount for overseas students (this amount was £4,050 in 2015-16) and Proficio funding, which may be used to 'buy' advanced skills training.

Who is eligible?

- This award is available to UK, EU and international full-time PhD students;
- Successful international applicants will need to fund the balance of the tuition fees;
- You must hold an offer from the Department of Mathematical Sciences at the University of Essex for a PhD (not MPhil or Masters by Dissertation);
- Receipt of the scholarship is subject to applicants firmly accepting the offer of study, registering as students of the University of Essex for the 2016-17 academic year, and meeting all conditions of our offer;
- No alternative form of the scholarship is available and the award cannot be deferred to a later year from the one for which you are admitted;
- Applicants may only receive one award administered by the University of Essex. In the event that an applicant is already in receipt of another University award (including the Alumni Loyalty Discount), the larger of the two awards will be kept and the other released;
- Where a student applies for and is awarded a scholarship and subsequently obtains full external funding, the University will rescind the scholarship offer. Where partial external funding is obtained, the department may choose to continue, reduce or rescind the scholarship offer as it sees fit.

How do I apply?
You should complete the University of Essex Mathematical Sciences Winsten Scholarship application form available on the website. Please note that you must be
applying for a new programme of study at the University of Essex, starting in October 2016, in order to be eligible. Applications for the University of Essex Mathematical Sciences Winsten Scholarship close on 22nd July 2016. Applications must be received by the specified closing date.

How are candidates selected?

Candidates will be selected for the award of a scholarship on the following criteria:
- academic ability - based on previous academic qualifications, normally a Master's degree with distinction or merit;
- research potential - based on the candidate's research proposal submitted with their application, as well as their statement on the scholarship application form; and
- professional development potential - based on the candidate's skills, aptitudes and potential to support their department's undergraduate teaching or research activities.

When are successful candidates notified?

Successful candidates will normally be notified by our Funding Team within six weeks of the closing date for applications. Acceptance of the scholarship constitutes acceptance of these terms and conditions. A scholarship will not commence until the student formally registers on a relevant course at the University of Essex.

How will the money be paid?

Our scholarships are awarded for each year of study during the standard minimum period of enrolment for your degree. The fee element will be deducted automatically. Awards are granted for one year in the first instance but will be renewed, subject to the award holder's satisfactory progress (as defined by the Code of Practice: Postgraduate Research Degrees), for a second and third year – up to a maximum tenure of nine terms or three years, provided the award holder is still engaged in full-time research (and excepting the circumstances stated in the section on termination, below). Where progress is satisfactory, renewal of the award is automatic. Students who wish to extend their minimum period of study will have to meet the additional costs themselves.

Intermission

Intermission from registration will only be granted in exceptional cases. During the period of intermission, scholarship payments will be suspended. Periods of intermission will not normally be granted for periods longer than six months. Applications for intermission should be made in advance and require the support of the supervisor and approval from our Dean of Postgraduate Research & Education.

Illness

Periods of illness for a continuous period of two weeks or more require medical certification and should be reported to the supervisor. After eight weeks of certified illness the scholarship will be suspended until the student resumes full-time study. Should a period of illness exceed four weeks, students are advised to request a period of intermission (see above).
Holidays
Scholarship holders are entitled to a maximum of eight weeks’ holiday (including bank holidays and the University closure at Christmas) per annum and pro-rata. Holidays should be agreed in advance with the supervisor and, in cases where the scholar is engaged in teaching and demonstrating, with the approval of the head of the student's department, school or centre.

Termination of Scholarship
Our University will terminate a scholarship when progress or performance is deemed to be unsatisfactory. The scholarship will be terminated if a student ceases to be registered as a student with the University, or for good cause at the discretion of our Dean of Postgraduate Research & Education, or his/her nominee for this purpose. If a scholarship is terminated prematurely for any reason, a scholar must repay to the University any monies including maintenance, travel, subsistence, fees overpaid from the date of the termination of the scholarship. If a scholar submits his/her thesis before the end of the scholarship, the scholarship will be terminated on the date of submission. If a scholar takes up full-time employment whilst in receipt of a scholarship, the scholarship will be terminated as of the first day of employment.

Transferability
Change of course within the University of Essex will not affect the continuation of a scholarship, providing that the student continues to be registered on an eligible course within the same department.

Resolution of disputes
In cases not covered by the above terms and conditions, or where a student claims exceptional circumstances, or disputes a decision not to make payments due under a scholarship, they should first put their case in writing to the Head of Funding who will consider the circumstances and uphold, amend or revoke the original decision. Should a student be unhappy with this decision they should follow the university complaints procedure:  http://www.essex.ac.uk/about/governance/policies/complaints.aspx

Promotional activities
By accepting the scholarship, recipients are giving the University permission to use their details for promotional purposes and may be asked to provide a case study which may be used in University publications or on the website.

Disclaimer
The information set out above is correct at the date of publication (April 2016). The University of Essex reserves the right to make changes to the above and will notify any such changes to applicants as appropriate.
