Schedule of Tuition Fees

How our tuition fees are set

1. The Fees Group committee is an advisory group to University Steering Group (USG), who meet four times per year and have the following responsibilities with regards to the setting of fees:
    a. Provides strategic direction for University fee policy.
    b. Develops policy on fees, recommends specific fees and price bands for undergraduate, postgraduate taught and postgraduate research courses.
    c. Reviews and endorses, on an annual basis, other fees and charges levied for additional or exceptional costs connected to individual student activity which is not included within the main fees.
2. All policies, fees, fee bands and other fees and charges are recommended to USG for approval on behalf of Council.
3. The amounts set out in this document for academic tuition are composite fees which include admission, registration, examination, and graduation fees as well as an obligatory contribution towards the cost of student societies, sports activities and other amenities. The fees identified in this document do not include accommodation or the cost of meals.
4. The Undergraduate Home fees are regulated by the Government. For 2025-26 these fee rates are capped at the following levels:
    - £9,535 for standard full-time undergraduate courses
    - £11,440 for full-time accelerated courses
    - £7,145 for part-time courses

Fee increases for Home students

5. For full-time undergraduate students with a Home fee status (which currently only includes EU students who have a pre-settled status), any fee increases during your programme of study will be limited to the annual increase in the RPI-X index. Increases in fees for full-time undergraduate students with a Home fee status remain subject to UK Government approval.

Fee increases for International students

6. The University sets tuition fees for one academic year at a time. If your course lasts for more than one academic year, the fees due in subsequent years of study may therefore be different to the fee advertised and charged for your year of entry.
7. For students who started in 2017-18 and earlier, the annual fee increase is 3% each academic year and for students starting from 2018-19 up to 2025-26, the annual fee increase is 5%. This should be budgeted for annually for each subsequent academic year of study. For students who are not paying their fees in British Pounds, fluctuations in the currency being used should also be budgeted for where possible.

Part-time fees

8. Part-time students will normally pay a fee pro-rata to the relevant full-time fee for the same course in each academic year in which they undertake study. For example, a student taking a part-time Masters course over two academic years starting in October 2025 will pay 50 per cent of the full-time fee charged for that course in 2025-26 and 50 per cent of the full-time fee charged for that course in 2026-27. The fee for the second year of the course may therefore be higher than for the first-year fee liability.

General information regarding fees

9. Tuition fees are normally published online at least 12 months in advance of the start of the next academic year. Students returning for a second or subsequent year of study will be notified of their tuition fees for the next year of study as part of the arrangements for Registration.
10. Liability for payment of overseas fees is determined by reference to the Education (Fees and Awards) Regulations. The Head of Admissions is responsible for determining the fee status of applicants to the University. Following Registration, a request by the student to reclassify their fee status can be considered by the Funding Team and referred to the Academic Registrar for approval where necessary.
11. A tuition fee deposit may be payable before you start your course. If this applies to you, details of the amount and how it should be paid will be included with your offer of study issued by the relevant admissions office. Our full Tuition Fee Deposit Policy is available on our website.
12. General information on how new students can pay their first annual tuition fee will be included with your offer of study issued by the relevant admissions office. Arrangements will be confirmed when your place at the University is finalised and will be included in the pre-arrival information including arrangements for Registration. You can find more information on how to pay your fees on our website.

13. At Registration, which takes place at the start of a period of academic study, you accept responsibility for the tuition fees for the forthcoming academic year. This will normally be a full academic year unless your course starts in January or April, or you are finishing prior to the end of the normal academic year.
14. Once registered at the University, all students, regardless of funding source and fee status, are responsible for their fees for the relevant degree course or research degree. Information regarding fee liability, including a change to registration status (e.g. withdrawal or intermissions) can be found in the Tuition Fee Payment and Liability Policy can be found on our website.

How we use your fees

15. Full details on how we use your fees can be found on our using your fees webpage.

Foundation Year fees

16. Courses that include a foundation year, typically designed to provide preparatory academic support before progressing to a full undergraduate degree, may have a different tuition fee structure than standard degree programmes.
17. For the 2025/26 academic year, foundation year fees are set individually by course and department and may be lower than the standard undergraduate fee if they are identified as classroom-based subjects. Students should refer to the Tuition Fees table in this document for specific course-level information.

Study Abroad and Placement Year fees

18. Students will normally pay a reduced tuition fee instead of the full year fee, while on a placement period or studying abroad.

Incoming Study Abroad Programme

19. These fees are detailed under the ‘Academic Section’ department of the fee schedule and consist of fees for a full year and per term.

Outgoing Study Abroad Programme

The academic year that you started on your course	Fee charged for your study abroad year
2018-19 and 2019-20	15% of the relevant course tuition fee
2020-21	£0
2021-22 to 2025-26	15% of the relevant course tuition fee

20. All students are required to pay the full tuition fee to the University of Essex at the point of Registration when studying a term abroad.

Placement fees

21. Students who opt for an industrial or clinical placement year as part of your Undergraduate course, will pay 20% of the relevant tuition fee for that year.

Modular Study

22. Students studying standalone modules or repeating modules on a part-time basis, will be charged the module fee for the academic year in question and the module fee will be dependent on the module department, not the department the course is associated with.

23. Please be aware that The Essex MBA modular study fees do not fall into the standard credit charge as noted in the above table. If you require specific information regarding these fees, please liaise with Essex Business School.

Accelerated Degrees

24. Students undertaking an accelerated degree programme, typically delivered over two years instead of the standard three, will be charged tuition fees that reflect the intensive nature of the course.
25. For the 2025/26 academic year, the fee for Home students enrolled on accelerated degrees, such as those offered by the Edge Hotel School, is £11,440. International students undertaking the same programmes will be charged £24,550.
26. These fees are set annually and include all standard tuition-related costs. Students should be aware that accelerated programmes may involve study during traditional vacation periods and should plan accordingly.

Apprenticeships

27. Students undertaking a degree or higher apprenticeship at the University of Essex do not pay tuition fees directly. The cost of apprenticeship training is covered through government funding and employer contributions. Apprentices are employed throughout their studies, receiving a salary from their employer, and therefore do not take out a tuition fee loan. However, apprentices remain responsible for any additional personal costs of study, such as travel, accommodation, and learning materials.

Postgraduate Visiting Research Students

28. The University has a tariff for visiting students seeking research attachments to departments and/or individual members of academic staff. This is intended to reflect the cost of providing a research attachment for an occasional student. These fees are calculated as a proportion of the standard postgraduate research degree fees. The monthly rate is calculated as a quarter of a 'four month' term.

Duration	Home fee (All departments)	International fee (Life Sciences, Psychology, School of Sport, rehabilitation, and Exercise Sciences)	International fee (All other departments)
Full year	£3,101	£11,416	£9,866
Two terms*	£2,068	£7,613	£6,579
One term	£1,034	£3,803	£3,286
Monthly (up to three months)	£255	£951	£823

*Includes vacation subsequent to final term, e.g. 1 term would be week commencing 5 October to week commencing 15 January.

29. The fee will include access to IT and library facilities and contact time with academic staff which would not exceed that delivered to a registered research degree student and occasional lecture attendance. Full module attendance would still require separate registration and payment in order to be registered for classes, examinations and to receive credit at the conclusion of the module.

Scholarships and bursaries

30. The University of Essex offers a range of scholarships and bursaries to support students with the cost of their studies. These include merit-based awards, need-based financial support, and targeted schemes for specific groups.
31. Some scholarships are awarded as tuition fee discounts, which directly reduce the tuition fee payable by the student. For example, eligible EU undergraduate students may receive a £5,000 scholarship for each year of study, applied as a fee reduction. Further details on the awarding of scholarships, tuition fee discounts, and associated fee liability can be found in the Tuition Fee Payment and Liability Policy.
32. Details of available funding, eligibility criteria, and application processes are published on the University's Scholarships and Bursaries webpage. Students are encouraged to explore these opportunities early and apply where applicable to help manage their financial commitments during their time at Essex.
