4. PROPOSED CHANGES TO RULES OF ASSESSMENT

Senate Agreed “That the Rules of Assessment be amended, as set out in Appendix D of paper S/15/23”

- LLB English and French Law – ACTION 2015-16
  Amendments to “reduce the credit load in the first and second years of the degree from 150 credits to 120 credits, and split the two existing core modules (LW107 and LW207) into four 15 credit modules.”
  Further information is available via paper S/15/23, Appendix D, Annex A

- Kaplan Singapore – ACTION 2014-15
  The following principles will apply to all current and future courses delivered by Kaplan Singapore
  “a. The Rules of Assessment in place at the time the Exam Board meets are applied for all students, regardless of when they started their course, as long as any revisions would not negatively impact students;
  b. Students whose preliminary module marks (after Kaplan Singapore marking and moderating) indicate they need to undertake reassessment in that module should be able to undertake reassessment before an Exam Board where their studies would otherwise be delayed unnecessarily.
  c. Students whose preliminary Stage Two marks (before going to an Exam Board) indicate they have passed all credits should be able to progress to the final Stage before the Exam Board meets.
  d. Students who have failed a maximum of 30 Stage Two credits (from modules of any status) should be allowed to progress into the final Stage and allowed to undertake at reassessment at the same time.”
  Further information is available via paper S/15/23, Appendix D, Annex B.

- Kaplan Open Learning (University of Essex Online) – ACTION 2014-15
  a. That students be permitted to undertake reassessment for the Fundamentals of Effective Learning (FEL) before an Exam Board has considered their previous marks “where waiting for an Exam Board would otherwise delay their studies”.
  b. That the threshold that dictates when a module is considered by an Exam Board should be decreased from six weeks to “usually no more than 4 weeks. Requirements restricting the resubmission of work previously submitted remain unchanged.”
  c. That the LLB (Hons) Law has been confirmed as a Qualifying Law Degree by the Solicitors Regulation Authority and “wording relating to requirements for achieving a QLD will be added to the KOL Rules of Assessment.”
  d. Students are currently required to complete 30 credits in a 12-month period but this can disadvantage a student who is completing reassessment. “It is therefore recommended that this Rule is amended to a requirement to ‘attempt’ rather than ‘complete’ 30 credits.”
  Further information is available via paper S/15/23, Appendix D, Annexes C and D.

- Variation to the Postgraduate Rules of Assessment – ACTION 2014-15
  The following principles should be applied to all current and future University of Essex Online courses:
  1. The Rules of Assessment in place at the time the Exam Board meets are applied for all students, regardless of when they started their course,
as long as any revisions would not negatively impact students.

2. Thresholds will apply that dictate when an attempt at a module will be considered by an Exam Board. This would apply to the following awards (and any awards validated in the future): Taught Masters degrees 2014-15; Postgraduate Diplomas; Postgraduate Certificates.

Further information is available via paper S/15/23, Appendix D, Annex E.

Further information is available via paper S/15/23, Appendix D, Annex H.

- **Assessment Methods – ACTION 2016/17**
  Clarification of the designation of take-home examinations as coursework in the assessment of modules.

  “It is recommended that the following policy should be introduced with effect from 2016/17:

  i. That only an examination which is invigilated should be classed as an examination and displayed as such on the transcript. This definition would also cover open-book examinations and Stage 1 MCQ tests in Biological Sciences.

  ii. Take-home examinations should be classed as coursework and departments would need to make this clear in the module information. Invigilated in-class tests and progress tests could continue to be counted as coursework.”

Further information is available via paper S/15/23, Appendix D, Annex I.

7. TALENT DEVELOPMENT CENTRE: PLANS FOR EXTENDING ENGLISH LANGUAGE AND ACADEMIC SKILLS PROVISION
Senate Agreed  That the following proposals be approved as set out in paper S/15/23:

3. Each department should appoint an appropriate member (or members) of staff to liaise with the Talent Development Centre. - the placement year would be classed as a level six module, and available as stage three of a four year course
- to pass, students needed to pass the overall module aggregate and did not need to pass each unit of assessment

9. MATTERS ARISING FROM THE EXTERNAL EXAMINER REPORTS AND ANNUAL REVIEW OF COURSES REPORTS

AQSC

Resolved / Noted

The following items had arisen as a result of External Examiners reports and the Annual Review of Courses:

- **Departmental prizes**
  "Information about the process for introducing new prizes had been circulated by the Registry."

- **Revised guidance for Exam Boards, Chairs and Secretaries**
  "Revised guidance for Exam Boards, Chairs and Secretaries on extenuating circumstances would be included in the training provided by the Registry in advance of 2014-15 Exam Boards."

- **Information given to External Examiners**
  "External Examiners would be asked at the Exam Boards about the information they would find useful to support them in their role."

- **Extracting module level data**
  "Information on how to extract module-level data was included in guidance provided by the Registry each year in advance of Exam Boards."

- **Institutional level responses to External Examiner reports**
  "That the PVC (Education), in liaison with the relevant Deputy Dean (Education), should respond to External Examiners where institution-wide issues were raised." Further information can be found via paper EC/15/07, EC. M. 35/15

- **Attendance at Exam Boards by External Examiners**
  A number of external examiners had commented on whether their attendance at Exam Boards in person was the most effective way for them to carry out their roles. One examiner referred to the Boards as being scrupulously fair and efficient, meaning that an Examiner may only be required to comment in relation to a very short part of the meeting. The possibility of virtual attendance had therefore been raised.

  AQSC confirmed that although a visit to the University could be extremely beneficial, there was no requirement for externals to attend only in person, and that attendance could be in person or virtually, Where attendance was to be virtual, arrangements should be made in advance, to ensure the external had gained access to the complete range of documentation and guidance needed to carry out their roles, and that the room was equipped to support virtual attendance at meetings. Virtual attendance should not be the only means of attendance, however, and an external examiner should always be given the opportunity to attend if they wished to.

  The Academic Standards and Partnerships Office had started work, in consultation with the Deputy Deans, to establish how each department worked with their external examiners, to identify any variations in practice, and to ensure each was operating in line with the University’s policy. The Academic Standards and Partnerships Office would review guidance, and would circulate to departments and the Registry.

- **Deadlines and late receipt of External Examiner reports**
  It was acknowledged that the timelines for consideration of the reports to inform ARCs were challenging. However, these were designed to ensure all reports had been received and incorporated into action plans for improvements to be implemented the following academic year, or sooner if appropriate.

  AQSC agreed that it did not wish to recommend that the timing of submission of reports and their consideration changed. Instead, guidance and the timing of reminders to external examiners and departments would continue to highlight the importance of the reports, and of receiving them on time. Departments would also continue to be reminded of the need to respond to their external examiners in a timely way.
Additional areas which emerged from the report have been included elsewhere in this report. Further information can be found via AQSC M. 15/131-134

10. COURSE APPROVAL

AQSC Noted  “A number of conditions of approval had been set by the Faculty Education Committees (FEC). Members of AQSC felt that some of these conditions could have been satisfied before submission to the FEC. The Committee stressed the importance of ensuring that courses were sufficiently developed, and that input had been sought in advance, particularly from the external academic, to inform course developments in advance of consideration by committees.”
