What is “Ordinary Residence”?

For the purposes of assessing eligibility for the scholarship, you must have been ordinarily resident in an African nation (defined as a member state of the African Union), for the three-year period prior to commencing your course. Ordinarily resident means that you must have been habitually, normally and lawfully, residing in an African nation, from choice, for the specified period. The three-year period for courses starting in October 2024 is calculated as 1 September 2021 to 1 September 2024. Temporary absences during this three-year period may be permitted at the discretion of the relevant University officer. Students may be asked to provide documentary evidence to determine ordinary residence and an assessment of whether a student meets the ordinary residence criteria will normally be made by the Head of Admissions or their nominee, and their decision will be final.

How to apply

If you meet all the eligibility criteria, you will automatically be considered for this award. You don't need to complete an application form. The University will assess your eligibility based on the academic transcripts and certificates you submit with your application for your place at Essex.
