

Computational Movement Sciences PhD Scholarship 2026-2027 Application Form

Name and contact details:

Title	
First name	
Surname	
PG number:	
Course holding offer for (you must be holding an offer before making this scholarship application):	

Financial support

Give FULL details of any financial support you have already been given for this course:
In addition to the scholarship, how do you propose to finance the remaining tuition fees and your living expenses?

Personal statement

In no more than 300 words, please provide a research abstract outlining a proposed PhD topic in the broad area of computational movement science, with particular relevance to computer vision, computational social and behavioural science, or musculoskeletal modelling. The abstract should briefly describe the research problem, aims, proposed methods and potential contribution, while also explaining how your previous research experience and analytical/computational

skills would support the proposed project, and identifying any additional methodological or technical skills you would need to develop during the PhD. The proposed topic is indicative and will be refined and agreed with the supervisory team before the project begins.

Declaration

I understand that if I do not hold an offer of study for a course by the specified deadline or provide evidence of my residency as stated above, my application will not be submitted to the selection panel.

I confirm that the above details are correct to the best of my knowledge. I acknowledge that if I am discovered to have made an untruthful statement then the University may withdraw any scholarship awarded. I agree that the decision of the awarding body is final.
