MY SUPERHERO

DESIGN TIME!

Use the templates provided to create your own superhero.

Remember all superheroes need:

- ★ **A costume**
- ★ **An Identity**
- ★ **Superpowers!**

Consider the following when writing your character description:

- What is your character like?
- What is your character interested in?
- What is your character afraid of?
- How does your character behave to show their personality?
- What is their purpose?
- Describe how your characters skills and qualities affect their actions.

What does your superhero look like?

- Think about how you could draw your character's facial expressions to get their personality across.
- Where and when is your character's story set? Could this affect what their costume looks like or what they look like?
- Do they have any specific accessories with their costume? What do they do and why?
