

03rd June 2026

Confirmation of full Fossil Free status:

This document confirms that the University of Essex's investment portfolio is being invested in alignment with the full Fossil Free commitment contained within their Ethical Investment Policy.

To this end we can confirm that the university's investment portfolio contains no fossil fuel companies across all asset classes. I.E. across the full scope of the university's investments there are zero holdings in fossil fuel companies.

Signed on behalf of Royal London Asset Management
