# Introduction

Our Sustainability Sub-Strategy outlines out commitment to acting in response to the climate and ecological emergency, while supporting the University's mission of excellence in education and research, for the benefit of individuals and communities.

### **Priority 4: Research**

Research is a pivotal aspect of our mission. The types of research activities we conduct will take the climate and ecological emergency into account, and where possible support new thinking and development. Equally, the ways all research is carried out will be conducted with environmental efficiency wherever possible.

#### Objective: To have increased the proportion of our research that supports the enhancement and protection of the environment, and ensuring our research is conducted in a way that minimises our environmental impact.

- A framework will be developed for sustainable research to support researchers to consider the implications for the climate to enable sustainable proposals to be developed. Research Project applications will take into account the implications of the proposed work in terms of travel, activities, equipment, power usage allowing us to deliver excellence in research while addressing our declaration of a climate and ecological emergency.
- Climate, ecological and sustainability research will be reviewed to promote greater engagement, collaboration and to identify future research opportunities for strategic development.
- We will raise the profile of our environmental research at Essex and link the Climate Emergency Group to our Centre for Environment and Society, maximising internal collaborations and delivering a programme of events to enhance interdisciplinary climate research collaborations.
- RDF will promote climate consciousness to equip the research community with the knowledge and skills to deliver on our climate responsibilities.

#### **Key Performance Indicators**

KPI 10: The opportunity to consider sustainability is embedded at all stages of the research planning, costing and delivery process by 2025

KPI 11: A sustainability module is developed for the Researcher Development Framework (RDF), and sustainability is embedded across the RDF more generally by 2022

KPI 12: There is an increased number of funding, knowledge exchange and impact activities in the areas of climate, ecological and sustainability research by 2025

KPI 13: There is an increased number of events showcasing our climate, ecological and sustainability research to internal and external stakeholders by 2023

KPI 14: The strategic plans for the Environment and Society and Centre for Public and Policy Engagement are delivered by 2023

#### **Action Plan**

| Туре        | Year    | ID      | Objectives and deliverables  | Objective Owner  |
|-------------|---------|---------|--|--|
| Priority 4  |         |         | Research   |  |
| Aim         |         |         | To have increased the proportion of our<br>research that supports the enhancement<br>and protection of the environment, and<br>ensuring our research is conducted in a<br>way that minimises our environmental<br>impact                               |  |
| Objective   |         | SSS15   | Develop a framework for delivering<br>sustainable research which embeds<br>climate consciousness at all stages of<br>the planning, costing and delivery<br>process   |  |
| Deliverable | 2022/23 | SSS15.1 | Climate and environmental considerations<br>are a core part of the research planning and<br>development process  | PVCR, DDRs,<br>Director of REO                             |
| Deliverable | 2022/23 | SSS15.2 | Costing of projects considers the<br>environmental impact of research – including<br>travel, activities and equipment  | Director of REO,<br>Head of Energy and<br>Carbon Reduction |
| Deliverable | 2022/23 | SSS15.3 | The full-life environmental and climate<br>impact of research projects is established at<br>the design stage   | Director of REO,<br>Head of Energy and<br>Carbon Reduction |
| Deliverable | 2023/24 | SSS15.4 | Research is delivered in a carbon neutral<br>way or, when this is not possible,<br>consideration is given to where offsetting<br>might be possible elsewhere   | Research<br>Community, SAG                                 |
| Objective   |         | SSS16   | Review the climate, ecological and<br>sustainability research currently being<br>conducted at Essex to a) promote greater<br>engagement and collaboration across the<br>university and b) identify future research<br>areas for strategic development. |  |
| Deliverable | 2022/23 | SSS16.1 | A comprehensive and shared understanding<br>of current climate, ecological and<br>sustainability research at Essex   | PVCR, DDRs,<br>Director of REO                             |
| Deliverable | 2022/23 | SSS16.2 | A strategic understanding of the opportunities to develop new and/or complementary areas of research   | PVCR, DDRs,<br>Director of REO                             |

| Туре        | Year    | ID      | Objectives and deliverables  | Objective Owner                                      |
|-------------|---------|---------|--|--|
| Deliverable | 2022/23 | SSS16.3 | A clear view of the types of partnerships that will help optimise the impact of our research   | PVCR, DDRs,<br>REO, Dean<br>Research<br>Partnerships |
| Objective   |         | SSS17   | Raise the profile our Environmental<br>Research at Essex and link the Climate<br>Emergency Group to our Centre for<br>Environment and Society and Centre for<br>Public and Policy Engagement     |  |
| Deliverable | 2022/23 | SSS17.1 | Develop and deliver a communication plan<br>around our climate, ecological and<br>sustainability research at Essex   | CER  |
| Deliverable | 2021/22 | SSS17.2 | Delivery of the strategic plan of the Centre for Environment and Society   | Director of CES                                      |
| Deliverable | 2021/22 | SSS17.3 | Delivery of the strategic plan of the Centre for Public and Policy Engagement  | Director of CPPE                                     |
| Objective   |         | SSS18   | Curate and deliver a programme of<br>events to enhance interdisciplinary<br>research collaboration around climate,<br>ecology and sustainability   |  |
| Deliverable | 2022/23 | SSS18.1 | Enhanced internal research collaborations – e.g., conferences, CUREs   | PVCR, DDRs   |
| Deliverable | 2022/23 | SSS18.2 | Stronger partnership collaborations – YUFE,<br>YERUN, EARC   | PVCR, DDRs,<br>Dean Research<br>Partnerships         |
| Deliverable | 2022/23 | SSS18.3 | Identification of new event and partnership opportunities  | PVCR, DDRs,<br>Dean Research<br>Partnerships         |
| Objective   |         | SSS19   | The RDF should promote climate<br>consciousness at all career stages to<br>equip the research community with the<br>necessary knowledge and skills to<br>deliver on our climate responsibilities |  |
| Deliverable | 2021/22 | SSS19.1 | The RDF embeds climate consciousness at key points   | Head of Research<br>Development and<br>Impact        |
| Deliverable | 2021/22 | SSS19.2 | The RDF continually adapts to the changing<br>environment, ecology and sustainability<br>research context and activities   | Head of Research<br>Development and<br>Impact        |

| Туре        | Year    | ID      | Objectives and deliverables   | Objective Owner       |
|-------------|---------|---------|---|-----------------------|
| Deliverable | 2023/24 | SSS19.3 | The research community is empowered to<br>conduct world-class research in a climate<br>conscious manner | Research<br>Community |
