Schedule of Tuition Fees 2021-22

How our tuition fees are set

1. The Fees Group committee is an advisory group to USG (University Steering Group) which meets on a termly basis and has the following responsibilities with regards to the setting of fees:
 - (a) Provides strategic direction for University fee policy
 - (b) Develops policy on fees, recommends specific fees and price bands for undergraduate, postgraduate taught and postgraduate research courses
 - (c) Reviews and endorses, on an annual basis, other fees and charges levied for additional or exceptional costs connected to individual student activity which is not included within the main fees.
2. All policies, fees, fee bands and other fees and charges are recommended to USG for approval on behalf of Council.
3. The amounts set out in this document for academic tuition are composite fees which include admission, registration, examination and graduation fees as well as an obligatory contribution towards the cost of student societies, sports activities and other amenities. The fees identified in this document do not include accommodation or the cost of meals.
4. The Undergraduate Home EU fees are regulated by the Government.

Fee increases

5. For full-time undergraduate students with a Home fee status (which currently only includes EU students who have a pre-settled status) any fee increases during your programme of study will be limited to the annual increase in the RPI-X index. Increases in fees for full-time undergraduate students with a Home fee status remain subject to UK Government approval.
6. The University sets tuition fees for one academic year at a time. If your course lasts for more than one academic year, the fees due in subsequent years of study may therefore be different to the fee advertised and charged for your year of entry.
7. For other students who started in 2017-18 and earlier, the annual fee increase will be 3% and other students starting from 2018-19 or later, the annual fee increase will be 5%.

Part-time fees

8. Part-time students will normally pay a fee pro-rata to the relevant full-time fee for the same course in each academic year in which they undertake study. For example, a student taking a part-time Masters course over two academic years starting in October 2021 will pay 50 per cent of the full-time fee charged for that course in 2021-22 and 50 per cent of the full-time fee charged for that course in 2022-23. The fee for the second year of the course may therefore be higher than for the first year.

Fee liability and paying your fees

9. Tuition fees are normally published online at least 12 months in advance of the start of the next academic year. Students returning for a second or subsequent year of study will be notified of their tuition fees for the next year of study as part of the arrangements for Registration.
10. Liability for payment of overseas fees is determined by reference to the Education (Fees and Awards) Regulations. The Head of Admissions is responsible for determining the fee status of applicants to the University. Following Registration, a request by the student to reclassify their fee status can be considered only in specific circumstances. Cases are considered by the Funding Team and referred to the Academic Registrar for approval.
11. A tuition fee deposit may be payable before you start your course. If this applies to you, details of the amount and how it should be paid will be included with your offer of study issued by the relevant admissions office. Our full tuition fee deposit policy is available on our website.
12. General information on how new students can pay their first annual tuition fee will be included with your offer of study issued by the relevant admissions office. Arrangements will be confirmed when your place at the University is finalised and will be included in the pre-arrival information including arrangements for Registration. You can find more information on how to pay your fees on our fees and funding webpage.
13. At Registration, which takes place at the start of a period of academic study, you accept liability for the tuition fees for the forthcoming academic year. This will normally be a full academic year unless your course starts in January or April, or you are finishing prior to the end of the normal academic year.
14. Once registered at the University, all students, regardless of funding source and fee status, are liable for their fees for the relevant degree course or research degree. If for any reason a student withdraws from their course, information on tuition fee payment and liability can be found on our website.
15. Late payment penalties are charged if tuition fee payments are late. Home and EU undergraduates are charged £25 per term – all other students are charged interest at 12.5% pa.

Postgraduate Visiting Research Students

The University has a tariff for visiting students seeking research attachments to departments and/or individual members of academic staff. This is intended to reflect the cost of providing a research attachment for an occasional student. These fees are calculated as a proportion of the standard postgraduate research degree fees. The monthly rate is calculated as a quarter of a 'four month' term.

Duration	Home fee All departments	International fee Life Sciences, Psychology, School of Sport, rehabilitation and Exercise Sciences	International fee All other departments
Full year	£2,552	£9,392	£8,117
Two terms	£1,701	£6,263	£5,413
One term	£851	£3,129	£2,704
Monthly (up to three months)	£210	£782	£677

*includes vacation subsequent to final term, e.g. 1 term would be c.1 October to c.15 January.

The fee will include access to IT and library facilities and contact time with academic staff which would not exceed that delivered to a registered research degree student and occasional lecture attendance. Full module attendance would still require separate registration and payment in order to be registered for classes, examinations and to receive credit at the conclusion of the module.
