PhD Students

Postgraduate Research milestones are used to ensure students are making sufficient progress during their studies, and to provide a supportive framework to guide students through the various stages of their research. The Milestones should also help to keep students on track to submit within the appropriate period. PGR supervisors should talk through the relevant milestones during supervisory meetings and they should be referred to on a regular basis.

Supervisory Panels and Research Students' Progress Boards will use the milestones to reflect on the level of progress being made, ahead of making a recommendation. Whilst the milestones are specific for each department and type of course, it is recognised that every research journey is different, and that whilst the milestones provide an overarching framework of expectations, a degree of flexibility should be given, based on the trajectory and scope of research.

Students and supervisors are encouraged to supplement these milestones with individual research plans which take into account the specifics of an individual research project and the individual circumstances of the PGR student. Students should determine whether they will produce a monograph- or paper-based dissertation during year 1 and should then read reference to chapters and/or papers below as relevant to their thesis format.

M3.3	<p>Clear evidence of progress towards submission.</p> <ul style="list-style-type: none"> • Continuing detailed, realistic plans of work/ timetable for the next six months. • Supervisory Panel report written in a clear and self-reflective style • Completed final draft of thesis for supervisor(s)/ supervisory Panel comment (This is equivalent to approx. 100% of completed thesis). • Submit Approval of Thesis Title form • Timeline of work needing to take place before submission with a clear plan to submission. • Submission date agreed • Evaluate progress against the project plans formulated for milestone 3.1 and revise if necessary. 	8-9	16-18

Has the student and supervisory team considered whether the research will be using human participants, and if so, has sought and received formal university ethics approval.

Has the student and supervisory team considered whether the research uses security-sensitive material, and if so, has sought and received formal university registration of this material.

The Supervisory Panel will either confirm to the Research Students' Progress Board that the student is ready to submit their thesis, or recommend that a period of completion is required (see below).

Completion Period

If, at the sixth Supervisory Panel, a student isn't on track to submit their thesis by the end of Year 3 (Year 6 for part-time students), a recommendation for a period of completion can be made by the RSPB, for approval by the Faculty Dean (Postgraduate).
