- c) The Board of Examiners will reinstate the module mark for a previous attempt at a failed module if it is higher than the mark for the most recent attempt;
- d) When a reassessment opportunity in a component leading to a numerical mark is offered the module aggregate will be calculated as follows:
 - i) Where students are not required to pass all the individual components of a module, the maximum mark that will be recorded for a module as a result of a second attempt is 50;
 - ii) Where students are required to pass all individual components of assessment, a pre-resubmission module aggregate will be calculated using the failed mark(s):
 - If the pre-resubmission module aggregate was below the pass mark then the resubmission can improve the module aggregate mark up to the pass mark only.
 - If the pre-resubmission module aggregate was above the pass mark then the resubmission cannot improve the module aggregate mark. The module aggregate is capped at the pre-submission aggregate.

- 4.1** If a student fails a module on the second attempt at the assessment no further attempt is allowed and the student will be required to withdraw unless there are substantiated extenuating circumstances accepted by the Board of Examiners.

 - ii) A dissertation or equivalent which has been re-submitted because of a marginal fail shall be awarded no more than a maximum mark of 50; in the case of re-submissions

because of extenuating circumstances, the full range of marks shall be available to examiners.

- f) Considering extenuating circumstances as necessary and their implications for results.
- g) Determining the appropriate award for each student.
