SCHOOL OF HEALTH AND SOCIAL CARE

Masters Advanced Clinical Practitioner Apprenticeship

Masters/PG Dip/PG Cert in Professional Practice (Leadership)
Masters/PG Dip/PG Cert in Professional Practice (Education)

1 PREAMBLE

- a) These rules apply to the modular postgraduate programmes listed above. The rules should be read in conjunction with the relevant Programme Structure, Programme Specification and on-line Module Directory entries. The Module Directory will give detail of assessment arrangements. The Programme Structure will identify which modules are core for the Programme.
 - b) A taught module is any assessed component excluding the dissertation or equivalent. A core module must be taken as part of the programme structure and passed, with no condonement of marks below a pass allowed.
 - c) The maximum period for completion of studies using credit accumulation is six years (normally five years to complete all taught elements and a further one year to complete the dissertation (or equivalent)). The maximum period of study is measured from the point at which a student first registered for a module that was being used towards the award.
 - d) The credit lifetime for any module is six years.
 - e) Masters degrees can be awarded with Distinction and Merit.
 - f) It is for the Board of Examiners to determine whether the criteria for an award have been satisfied.
-

2 PASS MARK

- a) The pass mark for all modules is 50. Credits are only awarded if the module is passed. In cases where failure with a mark of 40 is condoned, the credits are not awarded.
- b) For the purposes of these rules taught module averages will be rounded to the nearest whole number – i.e. 49.5 will count as 50, 49.4 as 49.
- c) All work placement/work-based assessments are assessed on a pass/fail basis. They are non-credit bearing but must be passed.
- d) Progression is based on passing all assessments and all modules. Students are required to pass all individual components of assessment and will be offered only one attempt to resubmit these where they are failed.

e) For HS604 Preparation for Non-Medical Prescribing Nurses, Midwives and SCPHNS the MCQ and Short Answer Test pass mark is 80.

The 80 examination pass mark will be adjusted proportionately to represent in real terms the mark students would achieve if the module used the standard 50 pass mark that applies to all other modules. This is achieved by applying the following formula:

$$\text{Transformed Grade} = 2.5 \times ([\text{Raw Grade}] - 80) + 50$$

This transformed grade will not appear on the transcript and will be retained for the purposes of calculating the aggregate mark only.

Failed work will normally be resubmitted within four weeks of students receiving their marked work. Progression is between modules, rather than levels or stages.

4 REASSESSMENT

Reassessment for taught modules

- a) Students who have failed any taught module may have a second attempt at the assessment for the module(s);
- b) Only one opportunity to resubmit the failed component will be offered;
- c) A pre-resubmission module aggregate will be calculated using the failed mark(s):
 - If the pre-resubmission module aggregate was under the pass mark then the aggregate can improve up to the pass mark only.
 - If the pre-resubmission module aggregate was over the pass mark then the aggregate is capped at this pre-submission aggregate.

- d) The Board of Examiners will reinstate the module aggregate mark for a previous attempt at a failed module if it is higher than the mark for the most recent attempt.

4.1 If a student fails a module on the second attempt at the assessment no further attempt is allowed and the student will be required to withdraw unless there are substantiated extenuating circumstances accepted by the Board of Examiners.

4.1.2 Where the Board of Examiners permits a student to have a second attempt at the assessment for a module this only applies to any individual assignment/examination for the module that has been failed. A student cannot be permitted to repeat a module unless permitted by the Board of Examiners because of substantiated extenuating circumstances.

4.2 Re-submission of Dissertations or equivalent

a) Re-submission of dissertations or equivalent is only permitted in the following circumstances:

- i) Either substantiated extenuating circumstances accepted at the discretion of the Board of Examiners; or
- ii) Where the original mark awarded is at least 40 and the Board of Examiners judges that the work required to pass does not include any additional experimental or practical work.

- i) A dissertation or equivalent must normally be re-submitted within two months of the formal notification of permission to resubmit; in cases of extenuating circumstances, this may be extended to a maximum of twelve months;
- ii) A dissertation or equivalent which has been re-submitted because of a marginal fail shall be awarded no more than a maximum mark of 50; in the case of re-submissions because of extenuating circumstances, the full range of marks shall be available to examiners.

When extenuating circumstances are accepted, the Board of Examiners will use its discretion to determine what if any action should be taken in accordance with the powers set out in the Policy. Except in the case of accepted extenuating circumstances, Boards of Examiners do not have powers of discretion in relation to the application of the rules of assessment.
